Landes- und kulturkundliche Inhalte sowie interkulturelle bzw. kulturreflexive Aspekte sind fester

Bestandteil des Fremdsprachenunterrichts. Doch wie sieht das in der Praxis und in Lehrmaterialien aus? Dieser Band bietet Grundlagen zur Lehrwerk- bzw. Landeskundeforschung und erkundet deren konkrete Umsetzung in einer kontextualisierten Lehrwerkanalyse. Untersucht werden frequent im schulischen Deutsch-als-Fremdsprache-Unterricht eingesetzte Anfänger-Lehrwerke für Jugendliche aus Polen und den Niederlanden. Gelungene Beispiele für die Umsetzung unterschiedlicher landeskundlicher Inhalte und Lernziele aus internationalen Lehrmaterialien bieten Anregungen für ein breiteres Spektrum an landeskundlichen Aktivitäten und Lernzielen, die direkt in die eigene Praxis umgesetzt werden können. Cultural content as well as intercultural and culture-reflective aspects are key concepts in foreign language pedagogy. But how are these key concepts reflected in teaching practice and teaching materials? This book provides a sound theoretical basis of research concerning both teaching materials and culture pedagogy. In a contextualized textbook analysis, we explore to what extent research insights are integrated into six frequently used Dutch and Polish course books for beginning adolescent learners of German. A selection of good practice examples from international teaching materials display the implementation of various cultural contents and provide input for a wide array of cultural activities and teaching objectives, which can be directly implemented in teaching practice.

Some vols. include supplemental journals of "such proceedings of the sessions, as, during the time they were depending, were ordered to be kept secret, and respecting which the injunction of secrecy was afterwards taken off by the order of the House".

In *Organizational Behavior: Solutions for Management*, Paul Sweeney and Dean McFarlin have identified 4 key management skills areas that act as building blocks for successful behavior in management. These skills are: self-insight/perceptual skills; ability to inspire/motivate/lead; ability to analyze situations; and personal flexibility/adaptability. The authors also feel strongly that successful management of organizational behavior rests on the problem-solving process; in fact, the 4 skills listed above enable managers to use this process to deal with the "people problems" they face more effectively. If nothing else, studying what organizational behavior has to offer as a field should help a person figure out his/her strengths and weaknesses.

Vols. for 1981- include four special directory issues.
