At a time when distinctions between television and film have blurred, and multiple TV channels offer us the chance to re-view TV dramas, there is still little attention paid to television drama as text or to ways of theorising such texts. This book offers both a clear account of theoretical approaches to television drama and readings of a range of television drama texts. Arguing that TV drama is a key site for exploring the usefulness of contemporary theories of identity, culture and representation, it offers a framework which links this analysis to theoretical concepts explored elsewhere in cultural, media and film studies over recent years. Each chapter provides a critical account of a specific theoretical approach, outlining its history and scope, and demonstrating its application across a range of TV dramas, ending with a close reading of particular examples. Organised around the themes of identity and subjectivity, the book encompasses a wide range of approaches and texts, from sitcom, to docudrama, to sci fi and is an ideal resource for undergraduate students of Media Studies, Cultural studies, Communication Studies and Television and Film Studies.

Israeli television, currently celebrating fifty years of broadcasting, has become one of the most important content sources on the international TV drama market, when serials such as Homeland, Hostages, Fauda, Zaguory

Empire and In Treatment were bought by international networks, HBO included. Offering both a textual reading and discourse analysis of contemporary Israeli television dramas, Itay Harlap adopts a case study approach in order to address production, reception and technological developments in its accounts. His premise is that the meeting point between social trends within Israeli society (primarily the rise of opposition groups to the hegemony of the Zionist-Jewish-masculine-Ashkenazi ideologies) and major changes in the medium in Israel (which are comparable to international changes that have been titled "post-TV"), led to the creation of television dramas characterized by controversial themes and complex narratives, which present identities in ways never seen before on television or in other Israeli mediums.

This widely-respected history of British television drama is an indispensable guide to the significant developments in the area; from its beginnings on the BBC in the 1930s and 40s to its position in the twenty-first century, as television enters a multichannel digital era. Embracing the complete spectrum of television drama, Lez Cooke places programmes in their social, political and industrial contexts, and surveys the key dramas, writers, producers and directors. Thoroughly revised and updated, this second edition includes new images and case studies,

new material on British television drama before 1936, an expanded bibliography and a substantial new chapter that explores the renaissance in the quality, variety and social ambition of television drama in Britain since 2002. Comprehensive and accessible, this book will be of value to anyone interested in the rich history of British television and modern drama.

This book presents a compelling case for a paradigmatic shift in the analysis of television drama production that recentres questions of power, control and sustainability. Television drama production has become an increasingly lucrative global export business as drama as a form enjoys increased prestige. However, this book argues that the growing emphasis on international markets and global players such as Netflix and Amazon Prime neglects the realities of commissioning and making television drama in specific national and regional contexts. Drawing on extensive empirical research, *Producing British Television Drama* demonstrates the centrality of public service broadcasters in serving audiences and sustaining the commercial independent sector in a digital age. It attends closely to three elements—the role of place in the production of content; the experiences of those working in the sector; and the interventions from cultural intermediaries in articulating and ascribing value to television drama. With

chapters examining the evolution of British TV drama, as well as what might be in store in its future, this book offers invaluable insights into the UK as a major supplier of and market for television drama.

This book examines the creative strategies, narrative characteristics, industrial practices and stylistic tendencies of complex serial drama. Exemplified by shows like HBO's *The Sopranos*, AMC's *Mad Men* and *Breaking Bad*, Showtime's *Dexter*, and Netflix's *Stranger Things*, complex serials are distinguished by their conceptual originality, narrative complexity, transgressive lead characters and serial allure. As a drama form that continues to expand and diversify in today's television, HBO's *Boardwalk Empire* and *Game of Thrones*, Netflix's *Orange Is the New Black* and Hulu's *The Handmaid's Tale* provide further examples. Dunleavy investigates the strategies that underpin the innovations, influence and success of complex serial drama, giving students and scholars a nuanced understanding of this contemporary TV form.

Genre is central to understanding the industrial context and visual form of television. Television Genre Book introduces the concept of 'genre' itself and how it has been understood in television studies, and then addresses the main televisual genres in turn: drama, soap opera, comedy, news, documentary, reality television, children's television, animation and popular entertainment. This third edition is illustrated throughout with case studies of classic and contemporary programming from each genre, ranging from The Simpsons to Buffy the Vampire Slayer and from Monty Python's Flying Circus to Who Wants to be a Millionaire?. It also features new case studies on contemporary shows, including The Only Way Is Essex, Homeland, Game of Thrones, Downton Abbey, Planet Earth, Grey's Anatomy and QVC, and new chapters covering topics such as constructed reality, travelogues, telefantasy, stand-up comedy, the panel show, 24-hour news, Netflix and video on demand.

In this comprehensive textbook, newly updated for its second edition, Jonathan Bignell provides students with a framework for understanding the key concepts and main approaches to Television Studies, including audience research, television history and broadcasting policy, and the analytical study of individual programmes. Features for the second edition include: a glossary of key terms key terms defined in margins suggestions for further reading at the end of each chapter activities for use in class or as assignments new and updated case studies

discussing advertisements such as the Guinness 'Surfer' ad, approaches to news reporting, television scheduling, and programmes such as Big Brother and Wife Swap. Individual chapters address: studying television, television histories, television cultures, television texts and narratives, television and genre, television production, postmodern television, television realities, television representation, television you can't see, shaping audiences, television in everyday life.

With cases studies used throughout to help illustrate the more general points, this is an analysis of the most important characteristics of television dialogue, with a focus on fictional television. The book illustrates how we can fruitfully and systematically analyse the language of television.

The media is at the heart of cultural, social, political and economic events throughout the world. But how is the role and influence of mass media evolving? Who controls what the media tell us? What impact is new technology on the media as we know it? Building on the success of previous editions, Media Communication 3e continues to explore the changing media climate of the 21st Century. With each chapter showing how theory can be related to our everyday experience of the media, the book makes the most complex

ideas easy to understand. All the key topics for first year study are introduced and broken down into manageable chunks, as the book examines the role, ownership and constraints of media production, explaining essential terminology along the way. Packed with memorable examples from international media coverage of world affairs, this new edition explores important contemporary topics from public service broadcasting and network communication to web 2.0 and citizen journalism. With helpful features, including an extensive glossary, further reading and suggestions for discussion, this third edition provides an essential resource for all those studying media and communication.

From cops who are paragons of virtue, to cops who are as bad as the bad guys...from surly loners, to upbeat partners...from detectives who pursue painstaking investigation, to loose cannons who just want to kick down the door, the heroes and anti-heroes of TV police dramas are part of who we are. They enter our living rooms and tell us tall tales about the social contract that exists between the citizen and the police. Love them or loathe them—according to the ratings, we love them—they serve a function. They've entertained, informed and sometimes infuriated audiences for more than 60 years. This book examines *Dragnet*, *Highway Patrol*, *Naked City*, *The Untouchables*, *The F.B.I.*, *Columbo*, *Hawaii Five-O*, *Kojak*, *Starsky &*

It's time to take another look at the "perps," the "vics" and the boys and girls in blue, and ask how their representation intersects with questions of class, gender, sexuality, and "race." What is their socio-cultural agenda? What is their relation to genre and televisuality? And why is it that when a TV cop gives a witness his card and says, "call me," that witness always ends up on a slab?
