Teachers make a difference. The success of any plan for improving educational outcomes depends on the teachers who carry it out and thus on the abilities of those attracted to the field and their preparation. Yet there are many questions about how teachers are being prepared and how they ought to be prepared. Yet, teacher preparation is often treated as an afterthought in discussions of improving the public education system. Preparing Teachers addresses the issue of teacher preparation with specific attention to reading, mathematics, and science. The book

evaluates the characteristics of the candidates who enter teacher preparation programs, the sorts of instruction and experiences teacher candidates receive in preparation programs, and the extent that the required instruction and experiences are consistent with converging scientific evidence. Preparing Teachers also identifies a need for a data collection model to provide valid and reliable information about the content knowledge, pedagogical competence, and effectiveness of graduates from the various kinds of teacher preparation programs. Federal and state policy makers need reliable, outcomes-based information to make sound decisions, and teacher educators need to know how best to contribute to the development of effective teachers. Clearer

Understanding of the content and character of effective teacher preparation is critical to improving it and to ensuring that the same critiques and questions are not being repeated 10 years from now.

This book helps students listen for gist and specific information, to make inferences and to progress to content-based activities. Introducing Skills for Understanding is the high-beginning level of the Active Listening series. By activating students' knowledge of a topic before they listen, the text gives them a frame of reference to make intelligent predictions about what they will hear. Students learn to listen through a careful balance of activities, including listening for gist,

listening for specific information, and making inferences.

Contemporary's seven-book series is a comprehensive instructional program for adult learners and pre-high school skill levels. The series develops solid skill foundations needed by learners who may go on to prepare for the high school equivalency examination. Building Basic Skills is ideal for individualized or group instruction. Each worktext has clear, simple directions and easy-to-follow skill progressions for the learner working in a self-paced program. Each book provides everything the learner needs to master the basic skills.

Designed to meet the needs of a mixed population of readers, this

innovative book spans the gap between grammar study and writing. It takes an “ editing ” approach to basic language skills instruction — using sample paragraphs and excerpts from essays, rather than traditional sentence exercises — and requires readers to write and then edit what they write. It emphasizes the practical use of word lists, and includes many lists and charts.
