Baby Snatchers is the second book in The Detectives India Kane and AJ Colt. My two favourite detectives at the moment. Baby Snatchers is fast paced from the beginning. Babies are disappearing. THE SUNDAY TIMES BESTSELLER 'You're all fallen women. You've sowed the seed of Satan. You are nothing.' Mary Creighton was just 15 when she found herself pregnant out of wedlock, in 1960s Ireland. She dreamed of a happy life with her child, but that was shattered when she was sent away to Castlepollard - a home for mothers and their unborn babies. Stripped of their clothes and forced into gruelling work whilst pregnant, those who survived childbirth were made to force-feed their children for adoption into wealthy families. Babies were ripped out of their mother's hands, but Mary refused to let that happen to her. She managed to escape only to later lose her beautiful daughter to social services and the meddling nuns... who always managed to catch up with her. After spending time in an infamous Magdalene Laundry, and having another two children snatched away, Mary sought to find her lost children, and demand answers for the atrocities committed supposedly in God's name. This is a haunting account of a mother's worst nightmare, as Mary continues to fight for justice for the mothers who suffered there and the babies of Castlepollard: hundreds of which died and are still buried in the grounds today.

Between heaven and hell... Georgina Whitely loves her job as a midwife at the prestigious Sydney Harbour Hospital. The joy and excitement of helping to deliver babies never fails to bring a smile to her face. But the job is not without its challenges... Ward Seven is where pregnant, drug and alcohol addicted women go to have their babies. It's Georgie's job to not only manage the births, but also to manage the addictions. It breaks her heart to watch tiny newborns suffer from the harsh effects of drug withdrawal. And then there's the stress of dealing with their mothers. But babies are dying on Ward Seven and nobody can figure out why. Detective Sergeant Cameron Dawson has spent a decade putting his troubled childhood behind him. Just when he thinks his life is back on track, his sixteen-year-old sister, Cynthia, arrives on the scene. Not only has she run away from home, she's also just given birth at the Sydney Harbour Hospital. When Cameron arrives at Ward Seven, he's informed the baby has died. Shocked and saddened, Cameron does his best to help his sister through her grief. Within a fortnight, he hears of another infant death on the same ward. The hospital staff claim the deaths are sudden and unexplainable, but Cameron isn't so sure... And what in the world do they have to do with Georgie Whitely...?

In trouble with their principal because of their comic books, George and Harold decide to create a new epic novel.

With the same gripping tension of The Girl on the Train and The Good Girl, The Child Snatcher tells the suspenseful story of a mother trying to save her lazy son from himself and then from an enigmatic woman of dubious character who seems determined to systematically destroy her small family. Claire Wilkins is at her wits' end with her son, Brandon, a college dropout who spends his time lounging around the house. Claire, tired of seeing him waste his life playing video games and trolling the Internet, gives him an ultimatum: get a job, get back to school...or get out. Brandon decides to move in with a total stranger that he met in an online porn chatroom. This mysterious young woman, Ava, abruptly leads him down a dark path into a dangerous world. Terrified for her now distant son, Claire tries to entice Brandon to return home and discovers the true nature of his toxic and abusive relationship with Ava. But her world explodes when Brandon does the unthinkable. Her only glimmer of hope is discovering that Brandon and Ava are expecting a child. Claire believes she coddled Brandon too much and that she was a terrible mother. But maybe she can get a second chance and be a much better grandparent. Unfortunately, Ava's plan for hers and Brandon's child does not include Claire. In fact, Ava's plan is so nefarious that Claire is willing to risk everything, including her life, to save her innocent grandson. A spellbinding race against time, The Child Snatcher is a timely and terrifying thrill ride that will haunt you long after you've turned the final page.

The Baby-Snatcher is the sixth and final mystery novel in the Inspector Ramsay series by Ann Cleeves, author of the Shetland and Vera Stanhope crime series. And in the Howes' dark and cluttered kitchen they find Kathleen safe and apparently well, though acting rather mysteriously. Six months later, Ramsay has more or less forgotten the strange incident, busy as he is on the trail of a local child abductor. Until he receives news that Mrs Howe has disappeared once more. And for the second time he is drawn into the strange relationships of the families living on the lonely Headland. Then a woman's body is washed up on the beach . . .

Are your kids glued to their screens? Here is a practical, step-by-step guide that gives parents the tools to teach children, from toddlers to teens, how to gain control of their technology use. As children spend more of their time on tablets and smartphones, using apps specially engineered to capture their attention, parents are becoming concerned about the effects of so much technology use—and they feel powerless to intervene. They want their kids to be competent and competitive in their use of technology, but they also want to prevent the attention and behavioral problems that can develop from overuse. In this guide, Lucy Jo Palladino doesn't demonize technology; instead she gives parents the tools to help children understand and control their attention—and to recognize and resist when their attention is being "snatched." Palladino's straightforward, evidence-based approach applies to kids of all ages. Parents will also learn the critical difference between voluntary and involuntary attention, new findings about brain development, and what puts children at risk for attention disorders.
