A YA romance with a sparkling commercial voice and a dash of science that explores a relationship over six years The moment Spencer meets Hope the summer before seventh grade, it's something at first sight. The pair become fast friends, climbing trees and planning world travels. After years of being outshone by his older brother and teased because of his Tourette syndrome, Spencer finally feels like he belongs. But as Hope and Spencer get older and life gets messier, the clear label of friend gets messier, too. Through sibling feuds and family tragedies, new relationships and broken hearts, the two grow together and apart, and Spencer, an aspiring scientist, tries to map it all out using his trusty system of taxonomy. He wants to identify and classify their relationship, but in the end, he finds that life doesn't always fit into easy-to-manage boxes, and it's this messy complexity that makes life so rich and beautiful.

Discover the secret missions behind America's greatest conflicts. Danny Manion has been fighting his entire life. Sometimes with his fists. Sometimes with his words. But when his actions finally land him in real trouble, he can't fight the judge who offers him a choice: jail... or the army. Turns out there's a perfect place for him in the US military: the Studies and Observation Group (SOG), an elite volunteer-only task force comprised of US Air Force Commandos, Army Green Berets, Navy SEALs, and even a CIA agent or two. With the SOG's focus on covert action and psychological warfare, Danny is guaranteed an unusual tour of duty, and a hugely dangerous one. Fortunately, the very same qualities that got him in trouble at home make him a natural-born commando in a secret war. Even if almost nobody knows he's there. National Book Award finalist Chris Lynch begins a new, explosive fiction series based on the real-life, top-secret history of US black ops.

A 2015 Whitney Award Nominee! A powerful story of loss, second chances, and first love, reminiscent of Sarah Dessen and John Green. When Oakley Nelson loses her older brother, Lucas, to cancer, she thinks she'll never recover. Between her parents' arguing and the battle she's fighting with depression, she feels nothing inside but a hollow emptiness. When Mom suggests they spend a few months in California with Aunt Jo, Oakley isn't sure a change of scenery will alter anything, but she's willing to give it a try. In California, Oakley discovers a sort of safety and freedom in Aunt Jo's beach house. Once they're settled, Mom hands her a notebook full of letters addressed to her from Lucas. As Oakley reads one each day, she realizes how much he loved her, and each letter challenges her to be better and to continue to enjoy her life. He wants her to move on. If only it were that easy. But then a surfer named Carson comes into her life, and Oakley is blindsided. He makes her feel again. As she lets him in, she is surprised by how much she cares for him, and that's when things get complicated. How can she fall in love and be happy when Lucas never got the chance to do those very same things? With her brother's dying words as guidance, Oakley knows she must learn to listen and trust again. But will she have to leave the past behind to find happiness in the future? NATIONAL BESTSELLER | Steven Pressfield brings the battle of Thermopylae to brilliant life. Pat Conroy At Thermopylae, a rocky mountain pass in northern Greece, the feared and admired Spartan soldiers stood three hundred strong. Theirs was a suicide mission, to hold the pass against the invading millions of the mighty Persian army. Day after bloody day they withstood the terrible onslaught, buying time for the Greeks to rally their forces. Born into a cult of spiritual courage, physical endurance, and unmatched battle skill, the Spartans would be remembered for the greatest military stand in history: one that would not end until the rocks were awash with blood, leaving only one gravely injured Spartan squire to tell the tale. . . .

The life of Harriet Spencer, Countess of Bessborough, was one of both respectability and high scandal. The aristocracy of the eighteenth century were the A-list celebrities of the day; their lives, loves, fashions and misfortunes avidly reported in the press. They dominated the political world as well as the social, and Harriet was at the very heart of this powerful clique. She was born into the wealth and privilege of the Spencer family - and was the great-great-great-aunt of Diana, Princess of Wales. Following in the train of her sister, the charismatic Georgiana, Duchess of Devonshire, Harriet became one of the most glamorous and influential women of the Regency age. At a time when marriage was an aristocratic woman's only career choice, Harriet made an excellent match, to Frederick, Viscount Duncannon. But the marriage proved unhappy and Harriet soon embarked on a series of illicit affairs, including one with the charismatic playwright Richard Sheridan. In Naples she met and fell in love with the handsome young aristocrat Lord Granville Leveson Gower, a man twelve years her junior. And so began the affair that became the last, untold story of enduring love in the Regency period, an open secret within just a tiny circle. It only ended when Granville married her niece, Georgiana's daughter, taking into his care the two illegitimate children he had by Harriet. Harriet's was a life intertwined with public scandal, royal intrigue and high political drama. She was petted and spoiled by Marie Antoinette; she witnessed the French Revolution and George III's madness. She successfully dodged the Prince Regent's amorous advances; quarrelled bitterly with Byron, when her daughter Caroline Lamb embarked on a scandalous affair with him; and travelled through war-torn Europe during the rise and fall of Napoleon. She survived her sister Georgiana by twenty years, living to see the Battle of Waterloo and the coronation of George IV. An Aristocratic Affair opens a window on aristocratic life at its most intimate, and brings one of the Regency period's most colourful characters vividly to life.
