Molly: The True Story of the Amazing Dog Who Rescues Cats tells the heartwarming story of the man-and-dog team behind the United Kingdom Pet Detective Agency—how Colin, in need of a new lease on life, rescues Molly the dog, and how Molly in turn rescues many more beloved lost pets. As a veteran of the Royal Navy and longtime police officer, Colin Butcher was no stranger to dangerous situations. But a career in uniform can wear anyone down, so, in 2003, Colin left the force to start his own private detective agency, specializing in helping reunite people with their missing pets. And yet, despite his hundreds of successes, there were still heartbreaking cases where Colin couldn't find the missing on his own. He knew he needed a partner. When Colin first met Molly, his friends doubted that she would be up for the job. Where Colin was battle-tested, Molly was young and inexperienced. She was willful, wayward, and stubborn. But Colin could tell that Molly was unusually charismatic and intelligent. He decided to take a risk and bring on Molly for training. Yes, Molly is no ordinary deputy, but a black Cocker Spaniel, and this is no ordinary detective agency. Trained by the top canine behavioral experts at Medical Detection Dogs, Molly can find missing cats—who are uniquely skilled at eluding humans—by detecting a unique scent signature, and she has been wildly successful. The work is not always easy. Molly has faced hardships ranging from a near-fatal snakebite to the challenge of winning over Colin's girlfriend, Sarah. But through it all, Colin and Molly share an enduring love and affection. More than a working relationship, Molly is part of the family. Together, they are the Sherlock and Watson of missing pets.

Although much quieter than the farm animals that moo, cluck or oink, a gentle ladybug is instrumental in foiling a plan to steal the farm's prize-winning cow. By the author of The Gruffalo.

Maybe I'm not the hero type. But I can dream. Sometimes I dream I'm a rescue dog, saving a child lost in the woods. Or a guide dog, helping a person who cannot see. Or a police dog, tracking sneaky robbers. But when I wake up, I must face the truth. It's mostly big dogs who do those jobs. And I'm just Barnaby, a small mutt living in an animal shelter. Barnaby has big dreams, but he finds his true calling when he's adopted into a loving home and becomes a bedbug-sniffing dog—helping to find hidden bedbugs in hotels, on airplanes, in movie theaters, and even in people's homes!

A bestselling modern classic—both poignant and funny—narrated by a fifteen year old autistic savant obsessed with Sherlock Holmes, this dazzling novel weaves together an old-fashioned mystery, a contemporary coming-of-age story, and a fascinating excursion into a mind incapable of processing emotions. Christopher John Francis Boone knows all the countries of the world and their capitals and every prime number up to 7,057. Although gifted with a superbly logical brain, Christopher is autistic. Everyday interactions and admonishments have little meaning for him. At fifteen, Christopher’s carefully constructed world falls apart when he finds his neighbour’s dog Wellington impaled on a garden fork, and he is initially blamed for the killing. Christopher decides that he will track down the real killer, and turns to his favourite fictional character, the impeccably logical Sherlock Holmes, for inspiration. But the investigation leads him down some unexpected paths and ultimately brings him face to face with the dissolution of his parents’ marriage. As Christopher tries to deal with the crisis within his own family, the narrative draws readers into the workings of Christopher’s mind. And herein lies the key to the brilliance of Mark Haddon’s choice of narrator: The most wrenching of emotional moments are chronicled by a boy who cannot fathom emotions. The effect is dazzling, making for one of the freshest debut in years: a comedy, a tearjerker, a mystery story, a novel of exceptional literary merit that is great fun to read.
