UNLOCK THE MEANING OF EASTERN MAGICK In scope and clarity, there is no book that can compare to The Eastern Mysteries. This reissue of David Allen Hulse's landmark work is the one book all students of the occult must own. It catalogs and distills, in hundreds of tables of secret symbolism, the true import of each ancient Eastern magickal tradition. Each chapter is a key that unlocks the meaning behind one of the magickal languages. Through painstaking research and analysis, Hulse has accomplished an unprecedented feat -- that of reconstructing the basic underlying systems that form the vast legacy of mystery traditions. The real genius of this accomplishment is that it is presented in a way that is immediately understandable and usable. Although the book deals with many foreign scripts, ancient tongues, and lost symbols, it is designed for the beginning student. Included is a wealth of cross references, excellent introductory material and overviews, an extensive annotated bibliography, and -- new to this edition -- a complete index.

The Western Mysteries (previously published as The Key of It All, Book II: The Western Mysteries), by David Allen Hulse, is perhaps the most comprehensive, in-depth description of various aspects of the Western magickal tradition ever published. The uniting factor of this book is language. It begins with a discussion of the mysteries of the Greek alphabet, followed by the different forms of the Runes, and goes on to describe the mystical secrets of Latin. and then Enochian, where you will discover, for the first time ever, the correctly constructed Watchtower system. The book also includes the mysteries of the Tarot, a pictorial language, and it describes the development of the esoteric Tarot, how to do readings, and the significance of the symbolism on the Tarot cards. It concludes with the English language and its relationship to the Tarot, Enochian, and more. The introduction to The Western Mysteries serves as a complete introduction to the magickal tradition of the West. You will learn about the evolution of thought concerning the Elements, astrology, magick squares, geomancy, words of power, and more. You will find that each section of this book is a key that unlocks the meaning behind another of the magickal languages that you can relate to your own spiritual system. It is ideal for a beginning student to explore the mysteries of Western magick. It is a necessary tool for more advanced students, as it has collected hundreds of charts and lists which clarify and identify the similarities and differences between various systems. This is a reference book you will study over and over. The volume of information revealed makes The Western Mysteries an instant classic and a necessity for any spiritual practitioner.

Catalogs and distills, in hundreds of tables of secret symbolism, the true alphabet magick of seven ancient Western magickal traditions--Greek, Coptic, Runes, Latin, Enochian, Tarot and English.

The Milo & Jazz Mysteries stars two kid detectives-in-training who use STEM problem-solving skills as they race to unravel cases and save the day! Perfect for fans of Encyclopedia Brown, Cam Jansen and Nate the Great. A ghost? At school? Detective duo Milo and Jazz have their hands full when they find out their class' "haunted house" might really be haunted! This ideal series for beginning readers making the transition to chapter books has incredible Super Sleuthing activities in each book, including hidden pictures, puzzles, mini-mysteries, and quizzes—plus free online activities.

"Written by a practitioner of various Western occult traditions -- the author has a background in druidism, freemasonry, cabala, Louisiana hoodoo, and is a certified tarot grandmaster -- this is an authoritative and engaging reference on the occult. Cross-references lead to relevant entries, and sources for further reading are often suggested (a bibliography of these sources is included at the end of the volume). Extensively researched yet concise, this encyclopedia will provide a wide range of users with information on both occult history and current practice."--"Reference that rocks," American Libraries, May 2005.

The MIT Encyclopedia of the Japanese Economy was the first English-language encyclopedia to cover all major aspects of Japan's postwar economy. The second edition has been fully revised and expanded, and includes previously unpublished data as well as coverage of recent developments in the economy. The definitional entries concisely explain major economic concepts and include translations of Japanese economic terms and cross references to the longer topical essays. The 180 topical essays cover banks, financial systems, major industries, corporate groups, management practices, labor unions, international trade and investments, government economic policies, and more. They also include comprehensive statistics, American and Japanese views on economic relations between the two countries, and suggestions for further reading. A new index contains names of major companies.

Jewish symbols reflect the interaction of word and image within Jewish culture. Jews have always studied, interpreted, and revered sacred texts; they have also adorned the settings and occasions of sacred acts. Calligraphy and ornamentation have transformed Hebrew letters into art; quotation, interpretation, legend, and wordplay have made ceremonial objects into narrative. This book represents just such a collaboration between art and language. Ellen Frankel and Betsy Platkin Teutsch, writer and artist, have brought their extensive knowledge and talents together to create The Encyclopedia of Jewish Symbols, the first reference guide of its kind, designed for use by educators, artists, rabbis, folklorists, feminists, Jewish and non-Jewish scholars, and lay readers.
