His careful construction of the lives and stories of siblings Rosie and Paul (children of British spy Digby Clarke), and also the parallel story of Marc (a 12-year-old who escapes from an orphanage) does a fantastic job of painting a shockingly realistic portrait of not only the children and their lives and losses during the German's mad rush forward into Paris, but also the suffering and starving French soldiers and the brutality of the German (particularly the Gestapo) officers.

Britain, 1941. The government is building a secret army of intelligence agents to work undercover, gathering information and planning sabotage operations. Henderson's boys are part of that network: kids cut adrift by the war, training for the fight of their lives. They'll have to parachute into unknown territory, travel cross-country, and outsmart a bunch of adults in a daredevil exercise. In wartime Britain, anything goes.

Late summer, 1940. Hitler has conquered France. Now he intends to cross the Channel and defeat Britain before winter arrives. A group of young refugees led by British spy Charles Henderson faces a stark choice. To head south into the safety of neutral Spain, or go north on a risky mission to sabotage the German invasion plans. For official purposes, these children do not exist.

Summer, 1940. Hitler's army is advancing towards Paris, and millions of French civilians are on the run. Amidst the chaos, two British children are being hunted by German agents. British spy Charles Henderson tries to reach them first, but he can only do it with the help of a twelve-year-old French orphan. The British secret service is about to discover that kids working undercover will help to win the war.

Summer, 1944. As Allied soldiers prepare to land in France, Marc and his friends must destroy a battalion of German tanks that could halt the invasion in its tracks. The tide of war has turned against the Nazis, but desperation has made them more brutal than ever. Henderson's Boys' final mission will be their most dangerous. With food and weapons in short supply, survival is the biggest challenge of all.

With a mission pending in France, fourteen year-old Marc Kilgour, a secret agent, attempts to escape the German prison deep inside the enemy's territory.

In 1941, when German submarines are sinking ships filled with food and fuel for Britain, six young agents must sneak into Nazi-occupied Europe and sabotage a submarine base on France's western coast.

CHERUB agents are all seventeen and under. They wear skate tees and hemp, and look like regular kids. But they're not. They are trained professionals who are sent out on missions to spy on terrorists and international drug dealers. CHERUB agents hack into computers, bug entire houses, and download crucial documents. It is a highly dangerous job. For their safety, these agents DO NOT EXIST. Two hundred eighty child criminals live in the sunbaked desert prison Arizona Max. One of them is the son of a weapons dealer who has been selling U.S. missiles to terrorists. If CHERUB can get the kid, they can get the parent. Over the years, CHERUB has put plenty of criminals behind bars. Now, for the first time ever, they've got to break one out....

Henderson's boys, part of a secret army of intelligence agents, have to parachute into enemy territory, travel cross-country, and outsmart a bunch of adults in order to achieve their objective.

New York Times Bestseller The definitive story of the Ritchie Boys, as featured on CBS's 60 Minutes "An irresistible history of the WWII Jewish refugees who returned to Europe to fight the Nazis." -Newsday They were young Jewish boys who escaped from Nazi-occupied Europe and resettled in America. After the United States entered the war, they returned to fight for their adopted homeland and for the families they had left behind. Their stories tell the tale of one of the U.S. Army's greatest secret weapons. Sons and Soldiers begins during the menacing rise of Hitler's Nazi party, as Jewish families were trying desperately to get out of Europe. Bestselling author Bruce Henderson captures the heartbreaking stories of parents choosing to send their young sons away to uncertain futures in America, perhaps never to see them again. As these boys became young men, they were determined to join the fight in Europe. Henderson describes how they were recruited into the U.S. Army and how their unique mastery of the German language and psychology was put to use to interrogate German prisoners of war. These young men-known as the Ritchie Boys, after the Maryland camp where they trained-knew what the Nazis would do to them if they were captured. Yet they leapt at the opportunity to be sent in small, elite teams to join every major combat unit in Europe, where they collected key tactical intelligence on enemy strength, troop and armored movements, and defensive positions that saved American lives and helped win the war. A postwar army report found that nearly 60 percent of the credible intelligence gathered in Europe came from the Ritchie Boys. Sons and Soldiers draws on original interviews and extensive archival research to vividly re-create the stories of six of these men, tracing their journeys from childhood through their escapes from Europe, their feats and sacrifices during the war, and finally their desperate attempts to find their missing loved ones. Sons and Soldiers is an epic story of heroism, courage, and patriotism that will not soon be forgotten.
