SPECIAL FREE PREVIEW! “Comic and Exuberant . . . A fine and tender tale for anyone who has tried to let go of the past and envision the future while falling in love.” —Rhonda Riley, author of *The Enchanted Life of Adam Hope* What if you could know your romantic future? What if an envisionist could enter the name of your prospective mate into a computer that would show you a film of your future life together? In *The Future for Curious People*, a young librarian named Evelyn becomes obsessed with this new technology: she can't stop visiting Dr. Chin's office because she

needs to know that she'll meet someone and be happy one day. Godfrey, another client, ends up at the envisionist's office only because his fiancée insisted they know their fate before taking the plunge. But when Godfrey meets Evelyn in the waiting room, true love may be right in front of them, but they are too preoccupied—and too burdened by their pasts—to recognize it. This smart, fresh love story, with its quirky twists and turns, ponders life's big questions—about happiness, fate, and our very existence—as it follows Evelyn and Godfrey's quest for the elusive answers. “A love story about love stories . . . The pages burst with laugh-out-loud scenes and crisply original set-ups. I loved it!” —Lydia Netzer, author of *Shine Shine Shine* “Somewhere between Jorge Luis Borge's ‘The Garden of Forking Paths’ and *The Eternal Sunshine of the Spotless Mind* you will find Gregory Sherl's warm,

“Enormously appealing . . . Evelyn and Godfrey are two unforgettable characters you’ll root for and remember long after you’ve read the last page of this wildly original, deeply moving novel.” —Mindy Friddle, author of *Secret Keepers*

If you could see your future with someone . . . would you? Meet Evelyn and Godfrey. Evelyn is breaking up with her boyfriend, Adrian, as she's seen their dismal future together at Dr Chin's office: the life they may have when they are both many years older, singing 'Happy Birthday' to a chihuahua and arguing about cheese. She hopes for more. Meanwhile, Godfrey is proposing to his girlfriend, Madge - who's not quite willing to take that leap. She wants to see their future together first . . . just to be sure they're meant for one

Today it seems we have the world at our fingertips. Thanks to smartphones and tools such as Google and Wikipedia, we're able to feed any aspect of our curiosity instantly. But does this mean we are actually becoming more curious? Absolutely not. In *Curious*, Ian Leslie argues that true curiosity—the sustained quest for understanding that begets insight and innovation—is becoming increasingly difficult to harness in our wired world. We confuse ease of access to information with curiosity, and risk losing our ability to ask questions that extend our knowledge gap rather than merely filling it. Worst of all, this decline in curiosity has led to a decline in empathy and our ability to care about those around us.

Combining the latest science with an urgent call to cultivate curious minds, *Curious* draws on psychology, social history, and popular culture to show that being deeply curious is our only hope when it comes to solving current crises—as well as an essential part of being human.

We have been obsessed with predicting the future ever since the dawn of civilization. We've watched the stars, gazed into crystal balls, thrown bones, and read cards with the hope of getting a glimpse into future events. We have found ways to divine with just about everything! 'A Curious Future' is your guidebook to the more curious and lesser known forms of divination. Did you know you can divine with wine? Or that a simple pair of dice can give you prophetic insight? This book will help you predict the future

Frances inspires and empowers readers to make bold self-discoveries: to take risks, step off the conveyor belt, open your heart to chance, overcome self-doubt, foster generosity, pass less judgement, think originally, and lead with possibility. Your brain has an incredible power to get you to where you want to be. Your role is to let your brain know the destination, and to be brave enough to begin your future now.

In the tradition of Bill Bryson's *A Short History of Nearly Everything*, a smart and entertaining guide to the future of civilization When unexpectedly confronted with his own mortality, Mark Stevenson—a writer, deep-thinker, and stand-up comedian—

began to ponder what the future holds for our species. "The past is a foreign country," writes Stevenson. "By my analysis it's a bit like France-in that I've been to parts of it and eaten some nice food there. But the future? The future is an unknown territory-and there isn't a guidebook." Thus, his ambition was born. Stevenson set out simply, asking, "What's next?" and then traveled the globe in pursuit of the answers. Along the way, he visited the Australian outback to visit the farmers who can save us from climate change, met a robot with mood swings, and talked to the Spaniard who's putting a hotel in space. While some might be overwhelmed, or even dismayed by the looming realities of genome sequencing, synthetic biology, a nuclear renaissance, and carbon scrubbing, Stevenson remains, well, optimistic. Drawing on his singular humor and storytelling to break down these sometimes complicated
