If you are inspired to take up his challenge, the Karmapa offers a path for participating in a global community that is based on compassion. In these chapters, he shares his vision for bringing social action into daily life, on a scale we can realistically manage through the choices we make every day—what to buy, what to eat, and how to relate honestly and bravely with our friends and family and coworkers. His fresh and encouraging perspective shows us that we have the strength to live with kindness in the midst of the many challenges we face as socially and environmentally conscious beings. Because he sees the world through the lens of the interdependence of all beings, he sees that humans can change social and environmental problems by changing their attitudes and actions. And so, he shows ways that we can change our world by changing ourselves—by examining our own habits of consumption and by being willing to look into how our food reaches our table and how the products we buy are made. In his chapter on gender, he points out that we don't have to label others according to a social construct. If his viewpoint seems optimistic, it is—and it's also demanding. The Karmapa calls on us to open our mind and heart to the innumerable connections we share with others—in our families, communities, social systems, and on our planet. Thanks to the depth of his spiritual training, and the breadth of his curiosity about the world and his love for it, he presents a relevant framework for

understanding what it means to be human now—and why it's imperative that we concern ourselves with the well-being of all others. He points to a world we can create through our own effort, using a resource we already have in abundance—the basic nobility of our human heart.

The acclaimed #1 "New York Times"-bestselling author presents a spellbinding tale of a mother's tragic loss and one man's last chance at gaining salvation. Once again, Picoult mesmerizes and enthralls readers with this story of redemption, justice, and love.

#1 NEW YORK TIMES BESTSELLER □ In her latest book, Brené Brown writes, "If we want to find the way back to ourselves and one another, we need language and the grounded confidence to both tell our stories and be stewards of the stories that we hear. This is the framework for meaningful connection." In *Atlas of the Heart*, Brown takes us on a journey through eighty-seven of the emotions and experiences that define what it means to be human. As she maps the necessary skills and an actionable framework for meaningful connection, she gives us the language and tools to access a universe of new choices and second chances—a universe where we can share and steward the stories of our bravest and most heartbreaking moments with one another in a way that builds connection. Over the past two

decades, Brown's extensive research into the experiences that make us who we are has shaped the cultural conversation and helped define what it means to be courageous with our lives. Atlas of the Heart draws on this research, as well as on Brown's singular skills as a storyteller, to show us how accurately naming an experience doesn't give the experience more power—it gives us the power of understanding, meaning, and choice. Brown shares, "I want this book to be an atlas for all of us, because I believe that, with an adventurous heart and the right maps, we can travel anywhere and never fear losing ourselves."

A vision to address our environment, economy, politics, culture, and to catalyze the radical whole-system change we need now Recasting current problems as emergent opportunities, Terry Patten offers creative responses, practices, and conscious conversations for tackling the profound inner and outer work we must do to build an integral future. In practical and personal terms, he discusses how we can all become active agents of a transformation of human civilization and why that is necessary to our continued survival. Patten's narrative focuses on two aspects of existence--our dynamic but fractured and threatened world, and our

underlying wholeness and unity. Only by honoring both of these realities simultaneously can we make sustainable changes in ourselves, our communities, our body politic, and our planetary life-support system. A New Republic of the Heart provides a comprehensive understanding and inspiring vision for "being the change" in a way that can address the most intractable problems of our time. Patten shows how we can come together in our communities for conversations that matter and describes new communities, enterprises, and forms of dialogue that integrate both inner personal growth work with outer awareness, activism, and service.
