Chess players often reach a certain level and subsequently seem unable to become any stronger. They attain solid and even promising positions without having any well formulated ideas of how to continue the game. They frequently do not understand the strategic requirements of the niceties which go into the building up of a strong position. The Road to Chess Mastery is a collection of 25 games annotated specifically for the purpose of showing how to improve their chess. All phases of chess technique are included: discussions of the basic ideas behind modern openings, explanations of the handling of typical middle game positions, consideration of certain endgames, examples of the kind of technical analysis a chess player must make before deciding on the next move. Through an introduction that explains how the ordinary chess player can improve in the various phases of the game of chess, and in enlightening commentaries far more extensive than space permits in an ordinary annotated game, former World Champion Dr. Max Euwe shows how a chess player should think, by indicating the moves for all but the most obvious moves of each game. By applying what he learns in this work the reader may, indeed, find himself traveling the road to chess mastery.

One of the greatest chess legends of all time, Aron Nimzowitsch (1886-1935), is best known for founding the Hypermodernism school of chess, which emerged after World War I to challenge the chess ideologies of traditional central European masters. This first full-scale biography of Nimzowitsch chronicles his early life in Denmark, his family and

education, and his fascination with the game that would become the focus of his life. Also included are explorations of his tournament games and records, his dispute with influential chess teacher Siegbert Tarrasch, and his role in the development of Hypermodern Chess. With detailed accounts of nearly 450 games and the only narrative of Nimzowitsch from 1914 to 1924, a period formerly cloaked in mystery, this volume offers the most thorough profile available of one of chess's greatest innovators.

A US champion provides solutions to real life problems of improving ones chess.

Twenty-five chess games chosen, arranged, annotated to help amateurs avoid a variety of weak strategic and tactical moves. With commentary by 1935-36 World Chess Champion Max Euwe. 1963 edition.

"This first full-scale biography of Nimzowitsch chronicles his early life in Denmark, his family and education, and his fascination with the game. With detailed accounts of nearly 450 games and the only narrative of Nimzowitsch from 1914 to 1924, this volume offers the most thorough profile available of one of chess's greatest innovators"--Provided by publisher.

Mastering Positional Chess is a serious, but entertaining chess instruction book. Daniel started writing it when he realized that his lack of positional understanding was causing him to lose many games.

Garry Kasparov was the highest-rated chess player in the world for over twenty years and is widely considered the greatest player that ever lived. In *How Life Imitates Chess* Kasparov distills the lessons he learned over a lifetime as a Grandmaster to offer a primer on successful decision-making: how to evaluate opportunities, anticipate the future, devise winning strategies. He relates in a lively, original way all the fundamentals, from the nuts and bolts of strategy, evaluation, and preparation to the subtler, more human arts of developing a personal style and using memory, intuition, imagination and even fantasy. Kasparov takes us through the great matches of his career, including legendary duels against both man (Grandmaster Anatoly Karpov) and machine (IBM chess supercomputer Deep Blue), enhancing the lessons of his many experiences with examples from politics, literature, sports and military history. With candor, wisdom, and humor, Kasparov recounts his victories and his blunders, both from his years as a world-class competitor as well as his new life as a political leader in Russia. An inspiring book that combines unique strategic insight with personal memoir, *How Life Imitates Chess* is a glimpse inside the mind of one of today's greatest and most innovative thinkers.

## File Type PDF The Road To Chess Mastery

An edition of a work first published in the 1950s, updated and converted to modern chess notation, in which Max Euwe, World Champion 1935-37, provides instruction on key elements of chess strategy. The editor of this edition, a grandmaster, has added analytical footnotes.
