In Cancún, Mexico, for a peaceful vacation, a group of tourists sets off in search of one of their group who disappeared during an excursion to some nearby Mayan ruins, only to come face to face with an insidious evil that threatens their lives.

Trapped in the Mexican jungle, a group of friends stumble upon a creeping horror unlike anything they could ever imagine.Two young couples are on a lazy Mexican vacation–sun-drenched days, drunken nights, making friends with fellow tourists. When the brother of one of those friends disappears, they decide to venture into the jungle to look for him. What started out as a fun day-trip slowly spirals into a nightmare when they find an ancient ruins site . . . and the terrifying presence that lurks there.

Craving an adventure to wake them from their lethargic Mexican holiday before they return home, four friends set off in search of one of their own who has travelled to the interior to investigate an archaeological dig in the Mayan ruins.After a long journey into the jungle, the group come across a partly camouflaged trail and a captivating hillside covered with red flowers. Lured by these, the group move closer until they happen across a gun-toting Mayan horseman who orders them away. In the midst of the confrontation, one of the group steps inadvertently backwards into the flowering vine. And at that moment their world changes for ever...

A Library Reads Pick! The Blair Witch Project meets Midsommar in this brilliantly disturbing thriller from Camilla Sten, an electrifying new voice in suspense. Documentary filmmaker Alice Lindstedt has been obsessed with the vanishing residents of the old mining town, dubbed "The Lost Village," since she was a little girl. In 1959, her grandmother's entire family disappeared in this mysterious tragedy, and ever since, the unanswered questions surrounding the only two people who were left—a woman stoned to death in the town center and an abandoned newborn—have plagued her. She's gathered a small crew of friends in the remote village to make a film about what really happened. But there will be no turning back. Not long after they've set up camp, mysterious things begin to happen. Equipment is destroyed. People go missing. As doubt breeds fear and their very minds begin to crack, one thing becomes startlingly clear to Alice: They are not alone. They're looking for the truth... But what if it finds them first? Come find out. A terrifying thriller that will crawl beneath your skin . . . and leave fresh blood on every page. "Fraught with tension . . . Invasion of the Body Snatchers meets The Hot Zone."—Rocky Mountain News Across America a mysterious disease is turning ordinary people into raving, paranoid murderers who inflict brutal horrors on strangers, themselves, and even their own families. Working under the government's shroud of secrecy, CIA operative Dew Phillips crisscrosses the country trying in vain to capture a live victim. With only decomposing corpses for clues, CDC epidemiologist Margaret Montoya races to analyze the science behind this deadly contagion. She discovers that these killers all have one thing in common—they've been contaminated by a bioengineered parasite, shaped by a complexity far beyond the limits of known science. Meanwhile Perry Dawsey—a hulking former football star now resigned to life as a cubicle-bound desk jockey—awakens one morning to find several mysterious welts growing on his body. Soon Perry finds himself acting and thinking strangely, hearing voices . . . he is infected. The fate of the human race may well depend on the bloody war Perry must wage with his own body, because the parasites want something from him, something that goes beyond mere murder.

Catherine's last job ended badly. Corporate bullying at a top TV network saw her fired and forced to leave London, but she was determined to get her life back. A new job and a few therapists later, things look much brighter. Especially when a challenging new project presents itself — to catalogue the late M. H. Mason's wildly eccentric cache of antique dolls and puppets. Rarest of all, she'll get to examine his elaborate displays of posed, costumed and preserved animals, depicting bloody scenes from the Great War. Catherine can't believe her luck when Mason's elderly niece invites her to stay at Red House itself, where she maintains the collection until his niece exposes her to the dark message behind her uncle's "Art." Catherine tries to concentrate on the job, but Mason's damaged visions begin to raise dark shadows from her own past. Shadows she'd hoped therapy had finally erased. Soon the barriers between reality, sanity and memory start to merge and some truths seem too terrible to be real... in The House of Small Shadows by Adam Nevill.

One of our country's most acclaimed and beloved entertainers, Steve Martin has written a novella that is unexpectedly perceptive about relationships and life. Martin is profoundly wise when it comes to the inner workings of the human heart. Mirabelle is the "shopgirl" of the title, a young woman, beautiful in a wallflowerish kind of way, who works behind the glove counter at Neiman Marcus "selling things that nobody buys anymore . . ." Slightly lost, slightly off-kilter, very shy, Mirabelle charms because of all that she is not: not glamorous, not aggressive, not self-aggrandizing. Still there is something about her that is irresistible. Mirabelle captures the attention of Ray Porter, a wealthy businessman almost twice her age. As they tentatively embark on a relationship, they both struggle to decipher the language of love—with consequences that are both comic and heartbreaking. Filled with the kind of witty, discerning observations that have brought Steve Martin critical success, Shopgirl is a work of disarming tenderness.

"A master class in immersion. Don't let anybody tell you this book is a slow burn—Violet travels at the speed of horror." —Josh Malerman, New York Times bestselling author of Bird Box and A House at the Bottom of a Lake For many children, the summer of 1988 was filled with sunshine and laughter. But for ten-year-old Kris Barlow, it was her chance to say goodbye to her dying mother. Three decades later, loss returns—her husband killed in a car accident. And so, Kris goes home to the place where she first knew pain—to that summer house overlooking the crystal waters of Lost Lake. It's there that Kris and her eight-year-old daughter will make a stand against grief. But a shadow has fallen over the quiet lake town of Pacington, Kansas. Beneath its surface, an evil has grown—and inside that home where Kris Barlow last saw her mother, an old friend awaits her return.
