Winner of the Man Booker Prize A luminous novel about love, loss, and the unpredictable power of memory. In this "extraordinary meditation on mortality, grief, death, childhood and memory" (USA Today), John Banville introduces us to Max Morden, a middle-aged Irishman who has gone back to the seaside town where he spent his summer holidays as a child to cope with the recent loss of his wife. It is also a return to the place where he met the Graces, the well-heeled family with whom he experienced the strange suddenness of both love and death for the first time. What Max comes to understand about the past, and about its indelible effects on him, is at the center of this elegiac, gorgeously written novel — among the finest we have had from this masterful writer.

Winner of the Booker Prize 2005 When Max Morden returns to the seaside village where he once spent a childhood holiday, he is both escaping from a recent loss and confronting a distant trauma. Mr and Mrs Grace and their twin children Myles and Chloe appeared that long-ago summer as if from another world. Max grew to know them intricately, even intimately, and what ensued would haunt him for the rest of his years, shaping everything that was to follow.

The Man Booker Prize-winning author of The Sea gives us a brilliant, profoundly moving new novel about an actor in the twilight of his life and his career: a meditation on love and loss, and on the inscrutable immediacy of the past in our present lives. Is there any difference between memory and invention? That is the question that fuels this stunning novel, written with the depth of character, the clarifying lyricism and the sly humor that have marked all of John Banville's extraordinary works. And it is the question that haunts Alexander Cleave, an actor in the twilight of his career and of his life, as he plumbs the memories of his first—and perhaps only—love (he, fifteen years old, the woman more than twice his age, the mother of his best friend; the situation impossible, thrilling, devouring and finally devastating) . . . and of his daughter, lost to a kind of madness of mind and heart that Cleave can only fail to understand. When his dormant acting career is suddenly, inexplicably revived with a movie role portraying a man who may not be who he says he is, his young leading lady—famous and fragile—unwittingly gives him the opportunity to see with aching clarity the “chasm that yawns between the doing of a thing and the recollection of what was done.” Ancient Light is a profoundly moving meditation on love and loss, on the inscrutable immediacy of the past in our present lives, on how invention shapes memory and memory shapes the man. It is a book of spellbinding power and pathos from one of the greatest masters of prose at work today. This eBook edition includes a Reading Group Guide.

John Banville's stunning powers of mimicry are brilliantly on display in this engrossing novel, the darkly compelling confession of an improbable murderer. Freddie Montgomery is a highly cultured man, a husband and father living the life of a dissolute exile on a Mediterranean island. When a debt comes due and his wife and child are held as collateral, he returns to Ireland to secure funds. That pursuit leads to murder. And here is his attempt to present evidence, not of his innocence, but of his life, of the events that lead to the murder he committed because he could. Like a hero out of Nabokov or Camus, Montgomery is a chillingly articulate, self-aware, and amoral being, whose humanity is painfully on display.

On a languid midsummer's day in the countryside, old Adam Godley, a renowned theoretical mathematician, is dying. His family gathers at his bedside: his son, young Adam, struggling to maintain his marriage to a radiantly beautiful actress; his nineteen-year-old daughter, Petra, filled with voices and visions as she waits for the inevitable; their mother, Ursula, whose relations with the Godley children are strained at best; and Petra's "young man"—very likely more interested in the father than the daughter—who has arrived for a superbly ill-timed visit. But the Godley family is not alone in their vigil. Around them hovers a family of mischievous immortals—among them, Zeus, who has his eye on young Adam's wife; Pan, who has taken the doughy, perspiring form of an old unwelcome acquaintance; and Hermes, who is the genial and omniscient narrator: "We too are petty and vindictive," he tells us, "just like you, when we are put to it." As old Adam's days on earth run down, these unearthly beings start to stir up trouble, to sometimes wildly unintended effect. . . . Blissfully inventive and playful, rich in psychological insight and sensual detail, The Infinities is at once a gloriously earthy romp and a wise look at the terrible, wonderful plight of being human—a dazzling novel from one of the most widely admired and acclaimed writers at work today.

One part Nietzsche, one part Humbert Humbert, and a soupçon of Milton's Lucifer, Axel Vander, the dizzyingly unreliable narrator of John Banville's masterful new novel, is very old, recently widowed, and the bearer of a fearsome reputation as a literary dandy and bully. A product of the Old World, he is also an escapee from its conflagrations, with the wounds to prove it. And everything about him is a lie. Now those lies have been unraveled by a mysterious young woman whom Vander calls "Miss Nemesis." They are to meet in Turin, a city best known for its enigmatic shroud. Is her purpose to destroy Vander or to save him—or simply to show him what lies beneath the shroud in which he has wrapped his life? A splendidly moving exploration of identity, duplicity, and desire, Shroud is Banville's most rapturous performance to date.

John Banville, the Man Booker Prize–winning author of The Sea and Ancient Light, now gives us a new novel—at once trenchant, witty, and shattering—about the intricacies of artistic creation, about theft, and about the ways in which we learn to possess one another, and to hold on to ourselves. Equally self-aggrandizing and self-deprecating, our narrator, Oliver Otway Orme (“O O O. An absurdity. You could hang me over the door of a pawnshop”), is a painter of some renown and a petty thief who has never before been caught and steals only for pleasure. Both art and the art of thievery have been part of his “endless effort at possession,” but now he’s pushing fifty, feels like a hundred, and things have not been going so well. Having recognized the “man-killing crevasse” that exists between what he sees and any representation he might make of it, he has stopped painting. And his last act of thievery—the last time he felt its “secret shiver of bliss”—has been discovered. The fact that the purloined possession was the wife of the man who was, perhaps, his best friend has compelled him to run away—from his mistress, his home, his wife; from whatever remains of his impulse to paint; and from a tragedy that has long haunted him—and to sequester himself in the house where he was born. Trying to uncover in himself the answer to how and why things have turned out as they have, excavating memories of family, of places he has called home, and of the way he has apprehended the world around him (“one of my eyes is forever turning towards the world beyond”), Ollly reveals the very essence of a man who, in some way, has always been waiting to be rescued from himself.

One of the most dazzling and adventurous writers now working in English takes on the enigma of the Cambridge spies in a novel of exquisite menace, biting social comedy, and vertiginous moral complexity. The narrator is the elderly Victor Maskell, formerly of British intelligence, for many years art expert to the Queen. Now he has been unmasked as a Russian agent and subjected to a disgrace that is almost a kind of death. But at whose instigation? As Maskell retraces his tortuous path from his recruitment at Cambridge to the airless upper regions of the establishment, we discover a figure of manifold doubleness: Irishman and Englishman; husband, father, and lover of men; betrayer and dupe. Beautifully written, filled with convincing fictional portraits of Maskell's co-conspirators, and vibrant with the mysteries of loyalty and identity, The Untouchable places John Banville in the select company of both Conrad and le Carre. Winner of the Lannan Literary Award for Fiction "Contemporary fiction gets no better than this... Banville's books teem with life and humor." - Patrick McGrath, The New York Times Book Review "Victor Maskell is one of the great characters in recent fiction... The Untouchable is the best work of art in any medium on [its] subject." -Washington Post Book World "As remarkable a literary voice as any to come out of Ireland; Joyce and Beckett notwithstanding." -San Francisco Chronicle

A gripping novel of love and adventure on the high seas that introduces an unforgettable young heroine. Growing up on the Bay of Fundy in the 1860s, Azuba Galloway is determined to escape the confines of her town and live at sea. When she captures the heart of Captain Nathaniel Bradstock, she is sure her dreams are about to be realized, only to have pregnancy intervene. But when Azuba becomes embroiled in a scandal, Nathaniel must bring his young family abroad to save his reputation. Azuba gets her wish, but at what price? Alone in a male world, and juggling the splendor of foreign ports with the terror of the open seas, Azuba must fight to keep her family together. Blending the high-tension drama of missed chances and unexpected twists of the sort that made A Reliable Wife a bestseller with the pluck and spirit of a heroine in the vein of Laura Ingalls Wilder, The Sea Captain's Wife will captivate readers and critics alike.

In Mrs. Osmond, John Banville continues the story of Isabel Archer, the young protagonist of Henry James's beloved The Portrait of a Lady. Eager but naïve, in James's novel Isabel comes into a large, unforeseen inheritance and marries the charming, penniless, and—as Isabel finds out too late—cruel and deceitful Gilbert Osmond. Here Banville imagines Isabel's second chapter telling the story of a woman reawakened by grief and the knowledge that she has been grievously wronged, and determined to resume her quest for freedom and independence. A masterly novel of betrayal, corruption, and moral ambiguity, Mrs. Osmond would have thrilled James himself.
