**\*\*WINNER OF THE 2020 NOBEL PRIZE IN PHYSICS\*\*** The Road to Reality is the most important and ambitious work of science for a generation. It provides nothing less than a comprehensive account of the physical universe and the essentials of its underlying mathematical theory. It assumes no particular specialist knowledge on the part of the reader, so that, for example, the early chapters give us the vital mathematical background to the physical theories explored later in the book. Roger Penrose's purpose is to describe as clearly as possible our present understanding of the universe and to convey a feeling for its deep beauty and philosophical implications, as well as its intricate logical interconnections. The Road to Reality is rarely less than challenging, but the book is leavened by vivid descriptive passages, as well as hundreds of hand-drawn diagrams. In a single work of colossal scope one of the world's greatest scientists has given us a complete and unrivalled guide to the glories of the universe that we all inhabit. 'Roger Penrose is the most important physicist to work in relativity theory except for Einstein. He is one of the very few people I've met in my life who, without reservation, I call a genius' Lee Smolin

"[This] book explores a wide spectrum of violent situations and teaches you how to effectively assess them and how to act accordingly"--P. [4] of cover.

today on the path to getting the things you really want in life. The passions that REALLY excite you, that you've perhaps kept hidden or put away on the shelf. Whatever it is you dream about doing, having, or being, this book was created with the simple intent to help you make it reality. The book's author was an overworked and frustrated entrepreneur who was trapped in his own business. Finally he decided enough was enough, and took dramatic actions to reverse course. He gathered his closest friends and confidantes and they challenged each other to dig deep, re-discover their hidden passions, and architect what they needed to do to reinvent their lives. Whatever your biggest lifelong dream is, whether its to purchase your own island, travel the world for a year, or set up a profitable business from home, it can be practical and achievable with the right mindset, tools and plan. This book is based on conversations, interviews, research, and decades of combined experience from people doing the most extraordinary things around the globe. These people are no smarter than you are. They have no particular advantages, no special talents, connections, or resources. They simply made a decision one day to do what they wanted, and followed a plan to make it happen.
