Mockingbird. “ Beautiful science fiction . . . The story of an extraterrestrial visitor from another planet is designed mainly to say something about life on this one. ” —The New York Times “ An utterly realistic novel about an alien human on Earth . . . Realistic enough to become a metaphor for something inside us all, some existential loneliness. ” —Norman Spinrad, author of *The Iron Dream* “ Those who know *The Man Who Fell to Earth* only from the film version are missing something. This is one of the finest science fiction novels of its period. ” —J. R. Dunn, author of *This Side of Judgment*

Award-winning filmmaker and writer Sophia Al-Maria ’ s *The Girl Who Fell to Earth* is a funny and wry coming-of-age memoir about growing up in between American and Gulf Arab cultures. With poignancy and humor, Al-Maria shares the struggles of being raised by an American mother and Bedouin father while shuttling between homes in the Pacific Northwest and the Middle East. Part family saga and part personal quest, *The Girl Who Fell to Earth* traces Al-Maria ’ s journey to make a place for herself in two different worlds.

'Before there was Star Wars ... before there was Close Encounters ... there was *The Man Who Fell To Earth*.' - advertising tag line for 1981 reissue of the film. *Earthbound* is the first book-length exploration of a true classic of twentieth-century science-fiction cinema, shot under the heavy, ethereal skies of New Mexico by the legendary British director Nicolas Roeg and starring David Bowie in a role he seemed born for as an extraterrestrial named Thomas Newton who comes to Earth in search of water. Based on a novel by the highly regarded American writer Walter Tevis, this dreamy, distressing, and visionary film resonates even

more strongly in the twenty-first century than it did on its original release during the year of the US Bicentennial. Drawing on extensive research and exclusive first-hand interviews with members of the cast and crew, *Earthbound* begins with a look at Tevis's 1963 novel before moving into a detailed analysis of a film described by its director as 'a sci-fi film without a lot of sci-fi tools' and starring a group of actors - Bowie, Buck Henry, Candy Clark, Rip Torn - later described by one of them (Henry) as 'not a cast but a dinner party.' It also seeks to uncover the mysteries surrounding Bowie's rejected soundtrack to the film (elements of which later ended up his groundbreaking 1977 album *Low*) and closes with a look at his return to the themes and characters of *The Man Who Fell To Earth* in one of his final works, the acclaimed musical production *Lazarus*.

This book takes you deep into David Bowie's world. An honest and fascinating portrait of a very complex personality. In the seventies Bowie was the King of Glitter Rock, the trendsetter. He is a songwriter, singer, actor, performer and artist. He is regarded as one of the most influential pop musicians ever. Bowie is best known for his bizarre and decadent unisexual and bisexual behaviour. His life and career tell a story of drugs, sex, very high peaks and deep lows and the exploitation of his androgynous looks. The result of almost forty years of research. The most complete and best balanced book about David Bowie that has ever been written.

millionaire who has been living in the UK since the early 1980s. His name is Ashraf Marwan. But that is only part of the tale, for Marwan was also an international businessman and arms dealer, married to Mona Abdel Nasser, daughter of the legendary Egyptian President, Gamal Abdel Nasser. A few years before, I blew Marwan's cover, unmasking him as a top spy who had been working for Egypt's biggest enemy - Israel. But there is a twist - one that even the most audacious writer of fiction might balk at. Soon after I exposed him, Marwan made contact. We met, became friends, and then kept in touch for almost five years. The day before he plunges to his death, Marwan phones. He is anxious and shaken and he asks for an urgent face-to-face meeting. We schedule it for the next day. It never takes place. Around the time we are due to meet, Marwan's body is found in the private rose garden below his flat in central London. This is the story of what came to be known as 'The Marwan Affair', which shocked the public and the Intelligence community. It is based on my diary notes; together with messages I sent Marwan over the years they tell the inside story of my relationship with the spy some call the greatest secret agent of the twentieth century.
