There are very few people alive who have invested more time studying success than Bob Proctor. He has spent almost all day, every day, for thirty-three years analyzing success. Over the years, he has had many failures, but has also had numerous exciting wins on many continents around the world with millions of dollars involved. The wins and the failures have both proven to be extraordinary personal learning experiences. These are the core lessons that Bob has learned and mastered throughout his illustrious career of dedicated study, rigorous application, trial and error, and, of course, BIG wins. When it comes to systematizing life, no one else can touch him. He is simply the best. Let Bob lead you through his 12 principles for finding success. Instantly apply them to your own life. It will begin to impact you long before you reach the last chapter. Let Bob teach you about: CONFIDENCE PERSISTENCE GOALS SUCCESS ATTITUDE COMMUNICATION ACTION DECISION RISK RESPONSIBILITY MONEY CREATIVITY There are a few people who are truly successful and many others who work hard all of their lives attempting to be successful. As a result, the average person believes that success is hard to obtain and that those who do achieve it are either lucky or extremely brilliant. Most people are so busy attempting to make ends meet that they never take the time to really study the highly successful people. Every person who has made such a study has arrived at the same shocking conclusion: success is merely a decision. You must decide what you want and then begin moving toward it. You decide where you are, and you begin with whatever you have. That 's it. "The only limits in our life are those that we impose on ourselves." - BOB PROCTOR

If you knew your life was coming to an end, would you be happy with who you are and the life you've lived? This confronting question is at the heart of the inspiring, myth busting book, Your2Minds: Using Your Mind to Transform You Life. Inspired by the Law of Attraction, Mihajlovic's book includes practical but life-changing lessons that Mihajlovic discovered as a protege of today's master of new thought and human potential, Bob Proctor. In this book, Mihajlovic goes beyond the basic Law of Attraction principles and draws on her own transformational experiences, and skills as an elite level mindset and success coach, to dive into the core of shifting paradigms. She asks you to think about the kind of life you REALLY want to live and the person you REALLY want to be, and then shows you how you can DO and BE exactly that. Forget the myth that people are born smart, good-looking, or rich, and only the lucky ones can live a charmed life. YOU CAN TOO! Whether your dream is to escape the rat race, pursue your passion, write a best-seller, or just be a more confident and authentic version of YOU, this book is your blueprint for getting what you want, every time, no matter what it is. Make no mistake, manifesting the life of your

dreams is simple but not easy. It takes knowledge, guidance, and discipline. And with her warm, encouraging but no-holds-barred truth telling, Mihajlovic provides everything you need to realise YOUR INFINITE POTENTIAL.

The Diamond Project is a fascinating book about finding the diamonds within you. How many people go about their way looking for something that they have within themselves. Eric Hall does a great Job explaining and teaching in this first book in the series. By the end of it all, you will have a new perspective on the treasures you hold within yourself.

Even in this advanced technical and digital age, there is so much misunderstood regarding the law of attraction. This book describes the base elements, how it really works and functions, and the realization that the law of attraction is working all the time. This book will provide you with a simple and easy to understand explanation of the core principle itself, and how to effectively apply this principle to your everyday life. You will find answers to the age-old question of why am I not getting what I have asked for? How come others seem to get everything while I get nothing? Whether you are looking to draw a specific item into your life, if you desire the love of a specific person, or if you want to experience a truly prosperous life, this book is one that you will want to read over and over again as you learn to understand and apply the principles and become a master of the application in your daily life""the process of understanding your own inner beliefs, the effects of those beliefs, and how those beliefs create the life you have. Unlocking the Secrets of a Successful Networking Business Model The book was developed to provide a written source,a business plan for developing your business. Compare it to building a franchise , you are the franchisor. The principles and models used can be applied to any networking business.

When we look at people who have achieved great things, we often believe that they are more talented than the rest of us, or luckier, or more well-connected. But the only thing that separates the successful from everybody else is that they have learned how to bridge the gap between setting goals and achieving them. They have developed ways of behaving and -- more importantly -- ways of "thinking" that enable them to get what they want. The good news is, it's possible for anyone to learn these techniques. As a parent or teacher you can sharpen your own skills . . . then pass them along to the teens in your lives. Imagine implementing the concepts that "Secret teachers" and others are using to motivate thousands of adults and teens worldwide. Imagine improved relationships, increased self-esteem, and a direct path to your dreams. Imagine working with your children or students to help them get better grades, improve their results in sports, and pave a clear path to a brilliant future. Instead of imagining, start right now!

The valuable lesson contained in this book is that the best way to attract prosperity is to abandon the pursuit of wealth and allow it to flow toward oneself. The ancient laws of attraction are explained in plain language and applied in an economic framework—a new perspective not found in other popular explications of these principles. A path to prosperity is offered in tandem with guidance for achieving harmony in both professional and personal spheres while strategies to overcome destructive thinking patterns and to sustain the flow of wealth while channeling it constructively are delineated. Profiles of individuals who pursued their passion rather than profit, and subsequently reaped immense rewards, will inspire those seeking to transform their lives.
