LETTER TO THE EDITOR: This isn't the kind of notoriety we need  
Written By: Betty Hanson-Lehman, Bemidji | Jan 19th 2020 - 6am. × I could not believe the Bemidji photo and headline in the Jan. 8 ...

The powerful first collection of short stories by Jon McGregor. From the publication of his first Booker-nominated novel at the age of twenty-six, Jon McGregor's fiction has consistently been defined by lean poetic language, a keen sense of detail, and insightful characterization. Now, after publishing three novels, he's turning his considerable talent toward short fiction. The stories in this beautifully wrought collection explore a specific physical world and the people who inhabit it. Set among the lowlands and levees, the fens and ditches that mark the spare landscape of eastern England, the stories expose lives where much is buried, much is at risk, and tender moments are hard-won. The narrators of these delicate, dangerous, and sometimes deeply funny stories tell us what they believe to be important—in language inflected with the landscape's own understatement—while the real stories lie in what they unwittingly let slip. A man builds a tree house by a river in preparation for a coming flood. A boy sets fire to a barn. A pair of itinerant laborers sit by a lake and talk, while fighter-planes fly low overhead and prepare for war. This Isn't the Sort of Thing That Happens to Someone Like You is an intricate exploration of isolation, self-discovery, and the impact of place on the human psyche. Praise for *Even the Dogs*: "A rare combination of profound empathy and wonderful writing." —Mark Haddon, author of *The Curious Incident of the Dog in the Night-Time*

A fun, practical guide that reveals the essentials of good fiction and memoir writing by exposing the most common mistakes literary writers make. All great works of fiction and memoir are unique—but most bad novels, stories, and memoirs have a lot in common. From clunky dialogue to poorly sketched-out characters, sagging pacing to exaggerated prose, these beginners' mistakes drive any agent or editor to their stock rejection letter, telling the aspiring writer "Thanks, but this isn't for us," and leaving many to wonder what exactly it is that they're doing wrong. Veteran writing coach, developmental editor, and writing instructor Jessica Page Morrell will fill in the gaps in every rejection letter you've ever received. In *Thanks, But This Isn't for Us*, Morrell uses her years of experience to isolate the specific errors beginners make, including the pitfalls of unrealistic dialogue, failing to "show, not tell," and over-the-top plot twists. These are just a few of the problems that keep writers from breaking through with their work. Sympathetic and humane, but pulling no punches, *Thanks, But This Isn't for Us* shows writers precisely where they've gone wrong and how to get on the right track. In sixteen to-the-point chapters, with checklists, exercises, takeaway tips, and a glossary,

Morrell helps readers transcend these mistakes so that they don't have to learn the hard way: with another rejection letter.

Told from two viewpoints, high school seniors Haley, who had a public breakdown, and shy Lewis, long-time member of the TV Production class, find that filming documentaries about their classmates' hidden talents reveals their own aspirations.

This reader brings together the best of Noël Coward's short stories, verse, songs, plays, screenplays, etc.

Hercule Poirot tries desperately to save a kidnapped child, Miss Jane Marple goes beyond the grave to protect a dead man's heirs from disaster, and Mr. Harley Quin tracks down a cunning killer, in an ingenious anthology of whodunits. Reprint.

In addition to works by Plato and Xenophon, we know of dozens of treatises and dialogues written by followers of Socrates that are now lost. The surviving evidence for these writings constitutes an invaluable resource for our understanding of Socrates and his philosophical legacy. The Circle of Socrates presents new--sometimes the first--English translations of a representative selection of this evidence, set alongside extracts from Plato and Xenophon. The texts are arranged according to theme, with concise introductions that provide an overview of the topics and the main lines of thought within them. The aim is to give a fuller account of the philosophical activity of Socrates' immediate followers: both to shed light on less well known figures (some of whom inspired schools and movements that were influential in the development of later thought), and also to improve our grasp of the intellectual context within which Plato and Xenophon, the most important of the Socratics, lived and wrote. Included are a general introduction to the history, content, and character of these writings; a bibliography; an index of sources; and an index of the Socratics and their works.
