controversial *Time on the Cross*, which argued that slavery was an efficient and dynamic engine for the southern economy and that its success was due largely to the willing cooperation of the slaves themselves. Noted labor historian Herbert G. Gutman was unconvinced, even outraged, by Fogel and Engerman's arguments. In this book he offers a systematic dissection of *Time on the Cross*, drawing on a wealth of data to contest that book's most fundamental assertions. A benchmark work of historical inquiry, Gutman's critique sheds light on a range of crucial aspects of slavery and its economic effectiveness. Gutman emphasizes the slaves' responses to their treatment at the hands of

slaveowners. He shows that slaves labored, not because they shared values and goals with their masters, but because of the omnipresent threat of 'negative incentives, ' primarily physical violence. In his introduction to this new edition, Bruce Levine provides a historical analysis of the debate over Time on the Cross. Levine reminds us of the continuing influence of the latter book, demonstrated by Robert W. Fogel's 1993 Nobel Prize in Economic Sciences, and hence the importance and timeliness of Gutman's critique.

Discusses the reexamination of scholarly research on American slavery using quantitative data and statistical methods.

Daily comforts from the gospel of Christ provide busy Christian women with brief but deep reminders of how his truths powerfully connect to their daily lives. Nothing comforts a woman's soul more than a fully understood and embraced gospel. But many women aren't finding solace in their relationship with Christ because they don't see how his life, death, and resurrection connect with soccer practices and swim lessons. Besides, they just don't have time to sit down and read a theology book, no matter how much they

Read Book Time On The Cross The Economics Of

might hunger for God's truths. That's where Elyse Fitzpatrick's latest book comes in. Comforts from the Cross provides those well-intentioned women with bite-sized readings to remind them of their place in Christ and of his love and ministry in their busy lives. It also dusts off the facts of the gospel to show how ancient truths such as justification, sanctification, and redemption can free and enliven their souls every day. Even more, these five-minute celebrations of the gospel relieve readers of legalistic condemnation and empower them for joyful obedience by engendering fresh love for the Savior. A perfect choice for gift-giving or personal encouragement, Fitzpatrick's

book helps active women grasp the practicality of the gospel message and experience its deep comforts.

First published in 1963, James Baldwin's *A Fire Next Time* stabbed at the heart of America's so-called "Negro problem";. As remarkable for its masterful prose as it is for its uncompromising account of black experience in the United States, it is considered to this day one of the most articulate and influential expressions of 1960s race relations. The book consists of two essays, "My Dungeon Shook" — Letter to my Nephew on the One Hundredth Anniversary of Emancipation," and

Down At The Cross — Letter from a Region of My Mind. It weaves thematic threads of love, faith, and family into a candid assault on the hypocrisy of the so-called land of the free, insisting on the inequality implicit to American society. You were born where you were born and faced the future that you faced, Baldwin writes to his nephew, because you were black and for no other reason. His profound sense of injustice is matched by a robust belief in monumental dignity, in patience, empathy, and the possibility of transforming America into what America must become.

distinction between slavery as a form of work organization -- the aspect that has dominated historical debates -- and slavery as a set of property rights. Slave-based commerce remained central to the eighteenth-century rise of the Atlantic economy, not because slave plantations were superior as a method of organizing production, but because slaves could be put to work on sugar plantations that could not have attracted free labor on economically viable terms. Gavin Wright is William Robertson Coe Professor in American Economic History at Stanford University and the author of *The Political Economy of the Cotton South and Old South, New South: Revolutions in the*
