WHY OF THIS METHOD.

The author consulted with hundreds of foremen and supervisors in the agriculture, manufacturing and sewing industries throughout California, Arizona, and Texas. The consensus was overwhelming: there is an urgent need of a method to learn English, which has instructions in the native language and with figured pronunciation. FIRST FIVE LESSONS. Designed to create a natural environment for the student. At the end of the fifth lesson the student, without realizing it, has memorized 130 words of daily use; is able to utter 30 useful phrases; knows the sound of the alphabet; is able to use the indefinite and definite articles, the adjective, and the singular and plural in conjunction with IS and ARE. BEGINNING LESSON SIX. The student starts using the verbs in present tense in conjunction with other parts of the speech. He/she learns to make a sentence, change it to the interrogative form, and answer it in the positive and negative forms. GREAT FOR TEACHERS. English for Success gives the teacher the necessary freedom and time to devote to other activities. The writing exercises (practicias) will serve as homework. By having the students exchange their books and correct each other, they will detect the errors and will avoid them. NON-TECHNICAL LANGUAGE. Grammar is explained in a very simple and easy to understand terminology. This creates confidence in the student and encourages him/her to continue learning a language made "user friendly." BILINGUAL INSTRUCTIONS. Instructions in Spanish will make the student feel at home, in a natural environment. Instructions in English are for the teacher to explain the concept and expand on it. FIGURED PRONUNCIATION. A real plus in this textbook. Most Spanish speaking people believe that learning English is close to impossible, because it is written one way and pronounced completely different. Pronouncing each word aloud at the time of writing it, gives the student the confidence needed to utter those words, and to get used to the sound, to understand them. SPANISH / ENGLISH VOCABULARY. Sixty three (63) groups of related words, for easy memorization. THE AUTHOR: Juan Gonzalez, M. A. Studies of Humanities and Philosophy. Professor of Latin, Greek, Spanish, and English as a Second Language. Please direct any questions to: Juan González at jm.gonz@verizon.net.

Juliet Schor breaks a taboo by exposing Americans' shopping habits to moral society. Schor disapproves of unfettered private consumption, not only because we already use up so much, but also because overspending to bolster a sense of self does not lead to happiness. Along with her critique, Schor suggests intriguing ideas for making 'status' goods accessible for all—for example, imposing high taxes on expensive items to subsidize lines of affordable 'luxury' goods. A firestorm of responses follow from economist Robert Frank and others. The New Democracy Forum is a series of short paperback originals exploring creative solutions to our most urgent national concerns. "A civic treasure. . . . A truly good idea, carried out with intelligence and panache." --Robert Pinsky

In Jill Ann Spaulding's "Jill Ann: Upstairs," she reveals what really goes on behind closed doors at HeF's mansion- shocking and dangerous sexual practices, misguided and backstabbing young women, and more intrigue than a novel-only it's all true. A cautionary tale for young starlets and models . . .

Some fifty thousand Soviets visited the United States under various exchange programs between 1958 and 1988. They came as scholars and students, scientists and engineers, writers and journalists, government and party officials, musicians, dancers, and athletes—and among them were more than a few KGB officers. They came, they saw, they were conquered, and the Soviet Union would never again be the same. Cultural Exchange and the Cold War describes how these exchange programs (which brought an even larger number of Americans to the Soviet Union) raised the Iron Curtain and fostered changes that prepared the way for Gorbachev's glasnost, perestroika, and the end of the Cold War. This study is based upon interviews with Russian and American participants as well as the personal experiences of the author and others who were involved in or administered such exchanges. Cultural Exchange and the Cold War demonstrates that the best policy to pursue with countries we disagree with is not isolation but engagement.

Declutter your desk and brighten up your business with this transformative guide from an organizational psychologist and the #1 New York Times bestselling author of *The Life-Changing Magic of Tidying Up*. The workplace is a magnet for clutter and mess. Who hasn't felt drained by wasteful meetings, disorganized papers, endless emails, and unnecessary tasks? These are the modern-day hazards of working, and they can slowly drain the joy from work, limit our chances of career progress, and undermine our well-being. There is another way. In *Joy at Work*, bestselling author and Netflix star Marie Kondo and Rice University business professor Scott Sonenshein offer stories, studies, and strategies to help you eliminate clutter and make space for work that really matters. Using the world-renowned KonMari Method and cutting-edge research, *Joy at Work* will help you overcome the challenges of workplace mess and enjoy the productivity, success, and happiness that come with a tidy desk and mind.

In this, the first book-length study of Cooper's life and work, Diarmuid Hester shows that such comparisons hardly scratch the surface. A lively retrospective appraisal of Cooper's fifty-year career. Wrong tracks the emergence of Cooper's singular style alongside his participation in a number of American subcultural movements like New York School poetry, punk rock, and radical queercore music and zines.

"The anthology *Curating as Anti-Racist Practice* reflects upon museums and exhibitions from the perspective of postcolonial museology and critical migration and regime research. Beyond critical analysis, this collection of texts is about collecting strategies and forms of action that make it possible to think of curating as anti-racist practice. Using as springboards the intersections between social battlefields and curatorial practices, as well as a focus on agency, this book examines the relationality of struggles for and against representation. Therefore, the focus is on discursive strategies of resistance, contact zones and approaches to re-appropriation". [publisher].
