The workbook contains hundreds of exercises—more than could ever be assigned in any one class—offering you the flexibility to construct assignments that best meet the needs of your students. The Second Edition is enhanced with more analysis exercises at the end of every chapter.

Each set of exercises in the Workbook is closely correlated with the corresponding chapter of the text and with a particular Self-Test within the chapter. Each set of Workbook exercises begins with problems similar to those found in the corresponding Self-Test, but the Workbook exercises also include problems that are too open-ended for the Self-Test format as well as more creative types of compositional problems for those instructors who like to include this type of work.
