Fifteen years after Toyota announced it would build a manufacturing plant in the heart of the Bluegrass, Kentucky crafts are being used to help sell Camrys at car dealerships in Japan and sushi and Japanese condiments are widely stocked on grocery shelves in a number of cities across Kentucky. In early 2000, the state boasted more than 100 Japanese companies representing a total investment of more than seven billion dollars, employing more than 33,000 Kentuckians. Japan in the Bluegrass is the first book to focus on the regional and local impact of the globalization of Japanese businesses, particularly Toyota, in the United States. Fourteen American and Japanese contributors include geographers, political scientists, sociologists, and an economist, urban planner, and environmental scientist, and their essays go beyond the traditional exploration of politics and economics to examine the social, cultural, and environmental effects of Japanese investment in Kentucky. The authors examine the factors that brought these companies to this part of the United States, which range from a well-developed system of highways to cooperation from state and local governments to hefty incentive packages. They discuss the significant influence of Toyota and its suppliers on local communities in Kentucky as well as in Toyota City, Japan. Essays also cover the social and cultural shifts that have resulted from Japanese investment, including educational activities in public schools, the relationship between business and local media, and the integration of Japanese managers and their families into Kentucky communities.

Published by the Kentucky Historical Society and distributed by the University Press of Kentucky The history and beauty of the Bluegrass State come alive in words and pictures, as this volume chronicles the Kentucky experience in all its variety. Rare black-and white historic images combine with more than two hundred modern color photographs to complement a narrative written by some of the commonwealth's most celebrated wordsmiths: Thomas D. Clark, George Ella Lyon, John Ed Pearce, Gerald L. Smith, Michal Smith-Mello, and Michael T. Childress. Photographs by Dan Dry of Louisville, Kentucky. excerpt: Where are you from? ""Kentucky,"" I say. I'm from a place where people still stop for funerals, where they know who your grandmother was, where they tell stories at Corn Island at the state park at the dinner table where they pass on their youngest's outgrown clothes and bring a casserole as soon as someone dies. --George Ella Lyon
