"Karin Bergöö Larsson (1859-1928) was a mother of eight and wife to Sweden's beloved painter, Carl Larsson. She was herself a well-regarded artist but gave it up when she married, at the request of her husband. Replacing paintbrushes and canvas with needles and cloth, she turned a somewhat ugly cottage into a designer showcase"--

It is an essay book where you can find what it is like to live in the south and the consequences of poor markets that we give ourselves in the obligation to work for little or live from the government. This is explained by a predominance of cultures that were socializing and we had no choice but to channel a new culture into works, whether they be theater movies or musicals, to be on par with our competitors, the large friendly companies that they put together with writers protest this great simulation of entertainment in peace. It is an opportunity for them to really get to know us.

This open access book explores how digital tools and social media technologies can contribute to better participation and involvement of EU citizens in European politics. By analyzing selected representative e-participation projects at the local, national and European governmental levels, it identifies the preconditions, best practices and shortcomings of e-participation practices in connection with EU decision-making procedures and institutions. The book features case studies on parliamentary monitoring, e-voting practices, and e-publics, and offers recommendations for improving the integration of e-democracy in European politics and governance. Accordingly, it will appeal to scholars as well as practitioners interested in identifying suitable e-participation tools for European institutions and thus helps to reduce the EU's current democratic deficit. This book is a continuation of the book "Electronic Democracy in Europe" published by Springer.

This book explores an escalating modern-day crisis; managing waste in a sustainable way. The central question posed is whether advancing a circular economy provides a way to shift waste management practices towards more sustainable approaches. It begins with an in-depth analysis of the nature of waste management and the prevailing crisis, followed by a discussion about the circular economy in terms of its requirements and the challenges of implementation. The book then moves on to propose a framework that sets out how to establish the policy changes needed to advance a circular approach to waste management. Next, the book outlines complex issues in multilevel systems for advancing a circular economy through examining the contemporary situation in Belgium and Norway. It ends by bringing together the issues revealed in these case studies and draws insights for governments advocating circular approaches. The book will be a valuable resource to scholars, students, practitioners and policy makers interested in developing more sustainable methods of waste management.

Broché : 454 pages Editeur : Le Gant et la Plume Dimensions du produit : 15,2 x 2,6 x 22,9 cm ===== 400 photos de reportage sur le SAINT LINCEUL Pour les uns, c'est le Linceul qui a enveloppé Jésus. Pour les autres, c'est une habile peinture du Moyen-âge. Depuis 110 ans il est l'objet archéologique, le plus étudié du monde par les savants toutes disciplines confondues et pourtant, il reste une énigme que la science moderne ne peut reproduire. Ce livre est écrit comme : — Une enquête policière et scientifique. — Un reportage (environ 400 photos) et une aventure humaine et spirituelle. — Un roman historique d'aventures avec un voyage de plus de 3000 km à travers les 2 millénaires où vous ferez la connaissance de nombreux personnages, des chevaliers, des rois, des religieux, des scientifiques, des hommes et des femmes de toutes professions pour ou contre l'authenticité du Saint-Linceul — Une synthèse du dossier scientifique du linceul avec les dernières mises à jour le concernant.

Building Information Modelling (BIM) is a global phenomenon which is gaining significant momentum across the world. Currently there is little information on how to realise and monitor benefits from implementing BIM across the life-cycle of a built environment asset. This book provides a practical and strategic framework to realise value from implementing BIM by adapting Benefit Realisation Management theory. It presents an approach for practitioners aiming to implement BIM across the life-cycle of built environment assets, including both buildings and infrastructure. Additionally, the book features: wide-ranging information about BIM, the challenges of monitoring progress towards benefit goals and the greater context of implementation; a set of dictionaries that illustrate: how benefits can be achieved, what the benefit flows are and the enabling tools and processes that contribute to achieving and maximising them; a suite of measures that can serve to monitor progress with examples of how they have been used to measure benefits from BIM; real-world examples from across the world and life-cycle phases that show how these benefits can be achieved; and information on international maturity and competency measures to complement the value realisation framework. Including a blend of academic and industry input, this book has been developed in close collaborative consultation with industry, government and international research organisations and could be used for industry courses on BIM benefits and implementation for asset

management or by universities that teach BIM-related courses.

This book investigates the long-term impact of migration on development, engaging in a thorough analysis of the pertinent factors in migration. Migration scholars and stakeholders have long placed emphasis on the necessity of migration for development. At the heart of this book is the question: Has migration made development necessary, or is it the other way around? While existing literature is predominantly occupied with positive impressions about the migration-development nexus, this book challenges associated pervasive generalizations about the impact of migration, indicating that migration has not impacted all regions equally. This volume thus grapples with the different extents to which migration has impacted development by delving into the social costs that migrants often pay in the long run. With empirical support, this book proffers that some countries are becoming over-dependent on migration. An excellent resource for both policymakers working on migration policy, and scholars in international relations, migration and development studies, this book presents a range of innovative ideas in relation to the remittance-development nexus.

THIS BOOK IS A LONG QUANTITY FILM SCENARIO WHICH WAS ORIGINALLY WRITTEN. THE SCENES OF THE FILM WILL COME TO LIFE WHEN YOU READ. I DID NOT WRITE THIS LIKE A BOOK NOVEL WRITING BECAUSE THE STORIES DO NOT COME TO LIFE AS A FILM WHEN READING A BOOK. MY PURPOSE WHEN YOU READ THIS, READ THE FILM WITH YOUR OWN IMAGINATION LIKE YOU ARE WATCHING THE FILM. CHARACTERS WITH MANY DIFFERENT PROPERTIES AVAILABLE. I AM SURE YOU WILL READ A CHARACTER THAT YOU WOULD FIND YOURSELF. IF YOU LOVE ADVENTURE AND ACTION, LOVE WILL TRIGGER YOUR IMAGINATION AND IMMERSE YOU INTO THE STORY, NEVER BORING WHEN READING. IF YOU WANT TO READ A DIFFERENT WAY TO READ A BOOK AND A BOOK THAT TASTES A FILM, YOU WILL NEVER REMEMBER. THE 2nd SERIES OF THIS STORY WILL COME ON THE DEMAND OF YOUR DEAR READERS. A Groundbreaking Guide to the HPV Vaccine and the Science, Safety, and Business Behind It Cancer strikes fear in people's hearts around globe. So the appearance of a vaccine to prevent cancer—as we are assured the human papillomavirus (HPV) vaccine will—seemed like a game-changer. Since 2006, over eighty countries have approved the vaccine, with glowing endorsements from the world's foremost medical authorities. Bringing in over \$2.5 billion in annual sales, the HPV vaccine is a pharmaceutical juggernaut. Yet scandal now engulfs it worldwide. The HPV Vaccine on Trial is a shocking tale, chronicling the global efforts to sell and compel this alleged miracle. The book opens with the vaccine's invention, winds through its regulatory labyrinths, details the crushing denial and dismissal of reported harms and deaths, and uncovers the enormous profits pharma and inventors have reaped. Authors Holland, Mack Rosenberg, and Iorio drill down into the clinical trial data, government approvals, advertising, and personal accounts of egregious injuries that have followed in countries as far-flung as Japan, Australia, Colombia, India, Ireland, the U.K. and Denmark. The authors have written an unprecedented exposé about this vaunted vaccine. Written in plain language, the book is for everyone concerned – parents, patients, doctors, nurses, scientists, healthcare organizations, government officials, and schools. Ultimately, this book is not just about the HPV vaccine, but about how industry, government, and medical authorities may be putting the world's children in harm's way.
