Completed at home by an enthusiastic DIY mechanic who has great experience rebuilding bikes, this book covers the complete restoration of a Triumph Trident T150V and a Triumph T160. Each and every aspect of the dismantling, refurbishment and reassembly of these classic bikes is covered in great detail, accompanied by a host of clear colour photos.

ORIGINAL DESCRIPTION (1959): “ ... The Triumph Company has apparently always been in a hurry to get from one place to another. It began as a manufacturer of cycles back in the leisurely days of 1895. Triumph had established an excellent reputation for its motorcycles. Before World War I they had earned the rather apt sobriquet: “ Frisky. ” One can well imagine that with speedy, reliable motorcycles tooling about the countryside making a name for themselves, a light car would loom next on the horizon for Triumph. This was exactly the case. In 1931, the Triumph Cycle Company, having at last decided that they were in the automobile business for good, shortened their name to The Triumph Company... ” The legendary TR series of sports cars, competition results, tuning and maintenance for everyday and racing.

models in all of motorcycling. Distinguished by their handsome lines and pace-setting performance, the Bonneville and Tiger ruled the streets and race tracks from their introduction in the late 1950s through Triumph's golden age in the 1960s. Devotion to the marque remained strong even as the sun slowly set on the company's fortunes in the late 1970s and early 1980s. The original Triumph's demise in 1983 simply served to cement the legendary status of its long-lived top guns, the Bonneville and TR6.
