The small town of Chester's Mill, Maine, is faced with a big dilemma when it is mysteriously sealed off by an invisible and completely impenetrable force field. With cars and airplanes exploding on contact, the force field has completely isolated the townspeople from the outside world. Now, Iraq war vet Dale Barbara and a group of the town's more sensible citizens must overcome the tyrannical rule of Big Jim Rennie, a politician bent on controlling everything within the Dome.

#1 New York Times bestselling author Stephen King's novella The Sun Dog, published in his award-winning 1990 story collection Four Past Midnight, now available for the first time as a standalone publication. The dog is loose again. It is not sleeping. It is not lazy. It's coming for you. Kevin Delevan wants only one thing for his fifteenth birthday: a Polaroid Sun 660. There's something wrong with his gift, though. No matter where Kevin Delevan aims the camera, it produces a photograph of an enormous, vicious dog. In each successive picture, the menacing creature draws nearer to the flat surface of the Polaroid film as if it intends to break through. When old Pop Merrill, the town's sharpest trader, gets wind of this phenomenon, he envisions a way to profit from it. But the Sun Dog, a beast that shouldn't exist at all, turns out to be a very dangerous investment.

In this spectacular New York Times bestselling father/son collaboration that "barely along like a freight train" (Publishers Weekly), Stephen King and Owen King tell the highest of high-stakes stories: what might happen if women disappeared from the world of men? In a future so real and near it might be now, something happens when women go to sleep: they become shrouded in a cocoon-like gauze. If they are awakened, if the gauze wrapping their bodies is disturbed or violated, the women become feral and spectacularly violent. And while they sleep they go to another place, a better place, where harmony prevails and conflict is rare. One woman, the mysterious "Eve Black," is immune to the blessing or curse of the sleeping disease. Is Eve a medical anomaly to be studied? Or is she a demon who must be slain? Abandoned, left to their increasingly primal urges, the men divide into warring factions, some wanted to kill Eve, some to save her. Others exploit the chaos to wreak their own vengeance on new enemies. All turn to violence in a suddenly all-male world. Set in a small Appalachian town whose primary employer is a woman's prison, Sleeping Beauties is a wildly provocative, gloriously dramatic father-son collaboration that feels particularly urgent and relevant today.

Stephen King's legendary debut, the bestselling smash hit that put him on the map as one of America's favorite writers "Gory and horrifying. . . . You can't put it down." —Chicago Tribune Unpopular at school and subjected to her mother's religious fanaticism at home, Carrie White does not have it easy. But while she may be picked on by her classmates, she has a gift she's kept secret since she was a little girl: she can move things with her mind. Doors lock. Candles fall. Her ability has been both a power and a problem. And when she finds herself the recipient of a sudden act of kindness, Carrie feels like she's finally been given a chance to be normal. She hopes that the nightmare of her classmates' vicious taunts is over . . . but an unexpected and cruel prank turns her gift into a weapon of horror so destructive that the town may never recover.

After her serial killer ex-husband escapes from jail and comes looking for her, Gwen teams up with the brother of one of his victims and tries to rid herself of her ex once and for all.
