Conversations

explores
management
perspectives of the
calling construct.

Using Max Weber's seminal work, *The Protestant Ethic and the Spirit of Capitalism*, as a starting point, Myers seeks to enrich management perspectives of calling by integrating the contributions of other disciplines to

the literature on calling. While the word 'calling' is casually used as shorthand for 'my ideal job', the calling concept has provoked deeper and varied interest among the secular and spiritual circles of both scholars and practitioners. Structured around

the idea of four
conversations, the
book aims to
promote a holistic
examination of
calling. Each
conversation has a
different focus,
elucidating
important
dimensions of
calling, and
together they
provide a truly

book examines
existing
conversations in
management,
while part II
explores calling
across disciplines
and eras, from the

present. Finally,
part III unifies all
conversations in a

discusses its

Britains

There is evidence
that economic
fraud has, in recent
years, become
routine activity in
the economies of
both high- and low-
income countries.

Many business
sectors in today's

global economy are
rife with economic
crime.

Neoliberalism and
The Moral Economy
of Fraud shows
how neoliberal
policies, reforms,
ideas, social
relations and
practices have
engendered a type
of sociocultural
change across the

facilitating
widespread fraud.

investigates the

how contemporary
