Veritas is Ireland's leading religious publisher and retailer. We publish over 40 books each year in the areas of theology, scripture, prayer, spirituality, parenting, counselling, children's issues, social commentary and liturgical resource.

From the National Book Critics Circle Award-winning author comes the gripping true story of a sensational religious forgery and the scandal that shook Harvard. In 2012, Dr. Karen King, a star religion professor at Harvard, announced a breathtaking discovery just steps from the Vatican: she'd found an ancient scrap of papyrus in which Jesus calls Mary Magdalene "my wife." The mysterious manuscript, which King provocatively titled "The Gospel of Jesus's Wife," had the power to topple the Roman Catholic Church. It threatened not just the all-male priesthood, but centuries of sacred teachings on marriage, sex, and women's leadership, much of it premised on the hallowed tradition of a celibate Jesus. Award-winning journalist Ariel Sabar covered King's announcement in Rome but left with a question that no one seemed able to answer: Where in the world did this history-making papyrus come from? Sabar's dogged sleuthing led from the halls of Harvard Divinity School to the former headquarters of the East German Stasi before landing on the trail of a Florida man with an unbelievable past. Could a motorcycle-riding pornographer with a fake Egyptology degree and a prophetess wife have set in motion one of the greatest hoaxes of the century? A propulsive tale laced with twists and trapdoors, *Veritas* is an exhilarating, globe-straddling detective story about an Ivy League historian and a college dropout—and how they worked together to pass off an audacious forgery as a long-lost piece of the Bible.

A stunning monograph, depicting the real, unstaged, natural beauty of California's wine industry by a photographer and wine industry insider Behind the polish and the glamour of the tasting room is an industry notable for its complex labor challenges and its constant duel against unforgiving natural conditions. Longtime Napa-based photographer Jimmy Hayes, who has been documenting the California wine industry since 2014, offers an intimate look at the demanding reality and rugged beauty of winemaking. Hayes's structural, minimal, and poignant photographs present unromanticized, unscripted beauty and quietly magnificent details from an insider's vantage point. To work with wine is to work hard, with one's whole body, mind, and heart—and it's in those messy moments where the real beauty lies.

A restatement of the correspondence theory of truth together with a defense against objections and alternative theories, including deflationism, minimalism, and pluralism. In *Veritas*, Gerald Vision defends the correspondence theory of truth—the theory that truth has a direct relationship to reality—against recent attacks, and critically examines its most influential alternatives. The correspondence theory, if successful, explains one way in which we are cognitively connected to the world; thus, it is claimed, truth—while relevant to semantics, epistemology, and other studies—also has significant metaphysical consequences. Although the correspondence theory is widely held today, Vision points to an emerging orthodoxy in philosophy that claims that truth as such carries no significant weight in philosophical explanations. He devotes much of the book to a criticism of that outlook and to a less vulnerable formulation of the correspondence theory. Vision defends the correspondence theory by both presenting evidence for correspondence and examining the claims made by such alternative theories as deflationism, minimalism, and pluralism. The techniques of the argument are thoroughly analytic, but the problem confronted is broadly humanistic. The question examined—how we, as thinking beings, are connected to and manage to cope in a world that was not designed for our comfort or convenience—is more likely to be raised by continentalists, but is approached here with the tools of clarity and precision

more highly prized in analytic philosophy. The book seeks to avoid both the obscurantism that infects much continental thought and the overly technical concerns and methodology that limit the interest of much work in analytic philosophy. It thus provides a rigorous but largely nontechnical treatment of the topic that will be of interest not only to readers familiar with philosophy but also to those with a background in literary theory and linguistics.

"Things that are and are not, she thinks, and the dog is a snake." In this fantastic and fantastical debut, C.J. Lavigne concocts a wondrous realm overlaying a city that brims with civic workers and pigeons. Led by her synesthesia, Verity Richards discovers a hidden world inside an old Ottawa theatre. Within the timeworn walls live people who should not exist—people whose very survival is threatened by science, technology, and natural law. Verity must submerge herself in this impossible reality to help save the last traces of their broken community. Her guides: a magician, his shadow-dog, a dying angel, and a knife-edged woman who is more than half ghost. With great empathy and imagination, In Veritas explores the nature of truth and the complexities of human communication.

College proves to be a battleground for young Claire Shibbol, a Christian who wages a spiritual battle for survival in her new environment. Original.
