"You can be lonely anywhere, but there is a particular flavor to the loneliness that comes from living in a city, surrounded by thousands of strangers. The Lonely City is a roving cultural history of urban loneliness, centered on the ultimate city: Manhattan, that teeming island of gneiss, concrete, and glass. What does it mean to be lonely? How do we live, if we're not intimately involved with another human being? How do we connect with other people, particularly if our sexuality or physical body is considered deviant or damaged? Does technology draw us closer together or trap us behind screens? Olvia Laing explores these questions by travelling deep into the work and lives of some of the century's most original artists, among them Andy Warhol, David Wojnarowicz, Edward Hopper, Henry Darger and Klaus Nomi. Part memoir, part biography, part dazzling work of cultural criticism, The Lonely City is not just a map, but a celebration of the state of loneliness. It's a voyage out to a strange and sometimes lovely island, adrift from the larger continent of human experience, but visited by many - millions, say - of souls"--

This book investigates the reality of renovating a small frame Vespa in detail, outlining the techniques to fully restore a complete wreck to factory fresh. The restoration is carried out by the author in his own workshop, and all stages of the process are covered. From frame welding and panel repair, to paint and trim, every process is clearly described and backed up by over 600 full color photographs. Special tools, advice on their use, and even possible home-made substitutes are covered, along with advice on spare parts – no small frame Vespa owner should be without a copy.

In a rapidly growing field of neuromodulation against pain, this excellent publication presents a unique compilation of the latest theoretical and practical information for electrical stimulation of the peripheral nerves. Chapters cover the use of peripheral nerve stimulation in particular indications such as migraine, cluster headache, pain in Chiari malformation and fibromyalgia, as well as in specific body parts such as head and neck, trunk, and extremities. Furthermore, chapters on history, technical aspects, mechanism of action, terminology, complications and other important aspects of this pain-relieving modality give you a full overview of the field. Written by leading experts, this publication provides a comprehensive and updated summary of the currently available scientific information on peripheral nerve stimulation. All chapters contain original information making this book an invaluable reference for all who deal with the management of severe and chronic pain - including neurosurgeons and neurosurgical trainees, pain specialists and practitioners, anesthesiologists and neurologists.

The bestselling book, now with a new preface by the authors At once a bold defense and reimagining of capitalism and a blueprint for a new system for doing business, Conscious Capitalism is for anyone hoping to build a more cooperative, humane, and positive future. Whole Foods Market cofounder John Mackey and professor and Conscious Capitalism, Inc. cofounder Raj Sisodia argue that both business and capitalism are inherently good, and they use some of today ´ s best-known and most successful companies to illustrate their point. From Southwest Airlines, UPS, and Tata to Costco, Panera, Google, the Container Store, and Amazon, today ´ s organizations are creating value for all stakeholders—including customers, employees, suppliers, investors, society, and the environment. Read this book and you ´ ll better understand how four specific tenets—higher purpose, stakeholder integration, conscious leadership, and conscious culture and management—can help build strong businesses, move capitalism closer to its highest potential, and foster a more positive environment for all of us.

The Haynes Service and Repair manual for the Piaggio Vespa Scooter.

Praise for Be the Solution "In the past, many believed you either went into 'public service' to do good, or you 'went into business' to make money. Few realized that the long-term success of business depends on serving people, not making money. Few realized that perhaps the best way to serve the public was through free enterprise. Whole Foods Market founder John Mackey, visionary thinker Michael Strong, micro lender Muhammad Yunus, and a few others understand these truths. Be the Solution is the best single book to read to understand the emerging ways in which entrepreneurs can change the world." —Gary Hoover, serial entrepreneur, founder of Hoover's Business Information Service, Hooversworld.com "Michael Strong speaks the truth. A must-read for our new American government." —Sam Wlyly, founder, Green Mountain Energy; author of 1,000 Dollars and an Idea "This book is totally fantastic. Treat your mind to a feast. Use it to tune your vision towards what really works." —Charles Harper, Senior Executive VP, Chief Strategist, John Templeton Foundation "Perhaps more than ever before, young people today are motivated by the desire to make the world a better place. Unfortunately, many have little idea about how to do it, and their educational studies provide them with little direction. In contrast, this book is a road map about how we can get from where we are to where we want to be—to a more peaceful, more prosperous, and more environmentally sound world. Plus, it is exciting, uplifting, and adventurous. Indeed, it provides the recipe for a better world." —Dr. James Gwartney, coauthoer of Economic Freedom of the World: 2007 Annual Report; Gus A. Stavros Eminent Scholar Chair at Florida State University "This is a very thoughtful and timely book that asks us to look around—and to look within—the amazing opportunities that entrepreneurship offers to the world.I recommend this book to anyone interested in finding solutions to the current crisis." —Giancarlo Ibarguen, Executive President, Universidad Francisco Marroquin "At last, a book about the heart of capitalism as a force for creating good in the world for solving many of our tough societal problems.I hope our political leaders read it." —R. Edward Freeman, Olsson Professor of Business Administration, Academic Director, Business Roundtable Institute for Corporate Ethics, University of Virginia

Pilgrimage places anthropological works on a privileged platform for religious studies. The origin of built environment sets apart a platform for worship. It contains the dichotomy of life and death, striving towards the spirit of a dead that may or may not be religious. It is a soul searching process, a coming to terms with hopes and disillusion. Human situations in the flow of globalised urban areas draw together primal human search and economic considerations. The sacred and the profane, the belief in miracles and the management of both, necessitate fresh search of urban pilgrimage.

Anita Lahey ´ s second collection, Spinning Side Kick, is a hard-knuckled look at the other half. These lively poems mix a girl-about-town cockiness with an all-too-rare emotional honesty about men, love, and relationships. Whether the subject is a one-man chimney demolition, the lifelong fidelity of seahorses, a lover at war in Afghanistan or a kickboxing match, Lahey confronts the enduring disconnect between the sexes in a language that is slangy and quick, punctuated with jabs. She eyes those moments—in a day, in a life—when the normal clues we rely on disappear, shifting the line between domesticity and danger. In Spinning Side Kick, a talented poet returns with sharper aim.
