This book provides a broad international perspective on the psychological trauma faced by children and adolescents exposed to major disasters, and on the local public health response to their needs. An outstanding quality of the book is that it draws upon the experience of local researchers, clinicians, and public mental health practitioners who dedicated themselves to these children in the wake of overwhelming events. The chapters address exemplary responses to a wide variety of trauma types, including severe weather, war, industrial catastrophes, earthquakes, and terrorism. Because disasters do not recognize geographic, economic, or political boundaries, the chapters have been selected to reflect the diverse global community 's attempt to respond to vulnerable children in the most challenging times. The book, thus, examines a diverse range of healthcare systems, cultural settings, mental health infrastructure, government policies, and the economic factors that have played an important role in responses to traumatic events. The ultimate goal of this book is to stimulate future international collaborations and interventions that will promote children 's mental health in the face of disaster.

During the 2016 presidential election, America's election infrastructure was targeted by actors sponsored by the Russian government. *Securing the Vote: Protecting American Democracy* examines the challenges arising out of the 2016 federal election, assesses current technology and standards for voting, and recommends steps that the federal government, state and local governments, election administrators, and vendors of voting technology should take to improve the security of election infrastructure. In doing so, the report provides a vision of voting that is more secure, accessible, reliable, and verifiable.

Praise for *THE TRAVELS OF A T-SHIRT IN THE GLOBAL ECONOMY* "Engrossing . . . (Rivoli) goes wherever the T-shirt goes, and there are surprises around every corner . . . full of memorable characters and vivid scenes." —Time "An engaging and illuminating saga. . . Rivoli follows her T-shirt along its route, but that is like saying that Melville follows his whale. . . Her nuanced and fair-minded approach is all the more powerful for eschewing the pretense of ideological absolutism, and her telescopic look through a single industry has all the makings of an economics classic." —The New York Times "Rarely is a business book so well written that one would gladly stay up all night to finish it. Pietra Rivoli's *The Travels of a T-Shirt in the Global Economy* is just such a page-turner." —CIO magazine "Succeeds admirably . . . T-shirts may not have changed the world, but their story is a useful account of how free trade and protectionism certainly have." —Financial Times "[A] fascinating exploration of the history, economics, and politics of world trade . . . *The Travels of a T-Shirt in the Global Economy* is a thought-provoking yarn that exhibits the ugly, the bad, and the good of globalization, and points to the unintended positive consequences of the clash between proponents and opponents of free trade." —Star-Telegram (Fort Worth) "Part travelogue, part history, and part economics, *The Travels of a T-Shirt in the Global Economy* is ALL storytelling, and in the grand style. A must-read." —Peter J. Dougherty, Senior Economics Editor, Princeton University Press author of *Who's Afraid of Adam Smith?* "A readable and evenhanded treatment of the complexities of free trade . . . As Rivoli repeatedly makes clear, there is absolutely nothing free about free trade except the slogan." —San Francisco Chronicle

Educationeering describes the author's areas of professional and academic concern for the past 55 years. Educationeering can be defined as directing the triple academic functions of Research, Teaching and Responsive Social Engagement towards the education challenges of society. Prof. Obanya is an international Education Strategist and his original ideas are widely discussed throughout Africa.

Brilliant and engagingly written, *Why Nations Fail* answers the question that has stumped the experts for centuries: Why are some nations rich and others poor, divided by wealth and poverty, health and sickness, food and famine? Is it culture, the weather, geography? Perhaps ignorance of what the right policies are? Simply, no. None of these factors is either definitive or destiny. Otherwise, how to explain why Botswana has become one of the fastest growing countries in the world, while other African nations, such as Zimbabwe, the Congo, and Sierra Leone, are mired in poverty and violence? Daron Acemoglu and James Robinson conclusively show that it is man-made political and economic institutions that underlie economic success (or lack of it). Korea, to take just one of their fascinating examples, is a remarkably homogeneous nation, yet the people of North Korea are among the poorest on earth while their brothers and sisters in South Korea are among the richest. The south forged a society that created incentives, rewarded innovation, and allowed everyone to participate in economic opportunities. The economic success thus spurred was sustained because the government became accountable and responsive to citizens and the great mass of people. Sadly, the people of the north have endured decades of famine, political repression, and very different economic institutions—with no end in sight. The differences between the Koreas is due to the politics that created these completely different institutional trajectories. Based on fifteen years of original research Acemoglu and Robinson marshal extraordinary historical evidence from the Roman Empire, the Mayan city-states, medieval Venice, the Soviet Union, Latin America, England, Europe, the United States, and Africa to build a new theory of political economy with great relevance for the big questions of today, including: - China has built an authoritarian growth machine. Will it continue to grow at such high speed and overwhelm the West? - Are America 's best days behind it? Are we moving from a virtuous circle in which efforts by elites to aggrandize power are resisted to a vicious one that enriches and empowers a small minority? - What is the most effective way to help move billions of people from the rut of poverty to prosperity? More philanthropy from the wealthy nations of the West? Or learning the hard-won lessons of Acemoglu and Robinson 's breakthrough ideas on the interplay between inclusive political and economic institutions? *Why Nations Fail* will change the way you look at—and understand—the world.

This book is the first attempt to understand Boko Haram in a comprehensive and consistent way. It examines the early history of the sect and its transformation into a radical armed group. It analyses the causes of the uprising against the Nigerian state and evaluates the consequences of the on-going conflict from a religious, social and political point of view. The book gives priority to authors conducting fieldwork in Nigeria and tackles the following issues: the extent to which Boko

Haram can be considered the product of deprivation and marginalisation; the relationship of the sect with almajirai, Islamic schools, Sufi brotherhoods, Izala, and Christian churches; the role of security forces and political parties in the radicalisation of the sect; the competing discourses in international and domestic media coverage of the crisis; and the consequences of the militarisation of the conflict for the Nigerian government and the civilian population, Christian and Muslim.

About the Editor: Marc-Antoine Perouse de Montclos is a Doctor in Political Science and a Professor at the French Institute of Geopolitics in the University of Paris 8. A specialist on armed conflicts in Africa south of the Sahara, he graduated from the Institut d'etudes politiques de Paris (IEP), where he teaches, and is a researcher at the Institut de recherche pour le developpement (IRD). He lived for several years in Nigeria, South Africa and Kenya. He has published some eighty articles and books, including *Le Nigeria* (1994), *Violence et securite urbaines* (1997), *L'aide humanitaire, aide a la guerre?* (2001), *Villes et violences en Afrique subsaharienne* (2002), *Diaspora et terrorisme* (2003), *Guerres d'aujourd'hui* (2007), *Etats faibles et securite privee en Afrique noire* (2008), *Les humanitaires dans la guerre* (2013), and *La tragedie malienne* (2013). Reviews For scholars, government officials, journalists, and civic actors, this book expands our understanding of this enigmatic jihadist movement, its genesis, evolution, and political implications. In light of the global significance of militant Islam, the book is indispensable for students of Nigeria, Africa, Muslim societies, and armed conflicts.

-Richard Joseph, John Evans Professor of International History and Politics, Northwestern University This collection of essays on Boko Haram is much the best yet-well informed, coolly competent. With the insurgency still evolving, we really need this guide to its early days.

-Murray Last, Emeritus Professor of Anthropology, University College of London This valuable collection assembles notable experts who analyze the messages and behavior of Boko Haram. The collection also provides nuanced treatments of actors involved in the conflict, including the Nigerian state and Nigerian Christians.

-Alex Thurston, Visiting Assistant Professor, African Studies Program, Georgetown University

This well-established series, the most popular in Nigeria, has been fully revised to reflect recent developments in mathematics education at junior secondary level and the views of the many users of the books. It has especially been revised to fully cover the requirements of the new NERDC Universal Basic Education Curriculum.
