became a billionaire and investment sage by looking at companies as businesses rather than prices on a stock screen. The first two editions of *The Warren Buffett Way* gave investors their first in-depth look at the innovative investment and business strategies behind Buffett's spectacular success. The new edition updates readers on the latest investments by Buffett. And, more importantly, it draws on the new field of behavioral finance to explain how investors can overcome the common obstacles that prevent them from investing like Buffett. New material includes: How to think like a long-term investor – just like Buffett Why “loss aversion”, the tendency of most investors to overweight the pain of losing money, is one of the biggest obstacles that investors must overcome. Why behaving rationally in the face of the ups and downs of the market has been the key to Buffett's investing success Analysis of Buffett's recent acquisition of H.J. Heinz and his investment in IBM stock The greatest challenge to emulating Buffett is not in the selection of the right stocks, Hagstrom writes, but in having the fortitude to stick with sound investments in the face of economic and market uncertainty. The new edition explains the psychological foundations of Buffett's approach, thus giving readers the best roadmap yet for mastering both the principles and behaviors that have made Buffett the greatest investor of our generation.

What exactly is a Money Mind? At one level, it's a way of thinking about major financial issues such as capital allocation. At another level, it summarizes an overall mindset for successfully investing in today's fast-paced stock market, a mindset that depends on a commitment to learning, adapting, and facing down irrelevant noise. Among our greatest leaders are those driven by impulses they cannot completely control - by lust. Lust is not, however, an abstraction, it has definition. Definition that, given the impact of leaders who lust, is essential to extract. This book identifies six types of lust with which leaders are linked: 1. Power: the ceaseless craving to control. 2. Money: the limitless desire to accrue great wealth. 3. Sex: the constant hunt for sexual gratification. 4. Success: the unstoppable need to achieve. 5. Legitimacy: the tireless claim to identity and equity. 6. Legacy: the endless quest to leave a permanent imprint. Each of the core chapters focuses on different lusts and features a cast of characters who bring lust to life. In the real world leaders who lust can and often do have an enduring impact. This book therefore is counterintuitive - it focuses not on moderation, but on immoderation.
