Even more timely than when it first appeared, this bilingual tenth anniversary edition provides the faithful with a powerful instrument for opening wide the doors of Christ.

In this groundbreaking volume, J. Anderson Thomson, Jr., MD, with Clare Aukofer, offers a succinct yet comprehensive study of how and why the human mind generates religious belief. Dr. Thomson, a highly respected practicing psychiatrist with credentials in forensic psychiatry and evolutionary psychology, methodically investigates the components and causes of religious belief in the same way any scientist would investigate the movement of astronomical bodies or the evolution of life over time—that is, as a purely natural phenomenon. Providing compelling evidence from psychology, the cognitive neurosciences, and related fields, he, with Ms. Aukofer, presents an easily accessible and exceptionally convincing case that god(s) were created by man—not vice versa. With this slim volume, Dr. Thomson establishes himself as a must-read thinker and leading voice on the primacy of reason and science over superstition and religion.

Introduces young readers to Catholic beliefs as expressed in the Catechism of the Catholic Church.

Hans Kung is one of the most celebrated theologians of the present day. His audience, which is strong within his own Roman Catholic Church, is equally solid among Christians of other denominations, among those outside the churches and indeed among those at the frontiers of organised religion. From the start, he has been a rebel, being Swiss and a lover of personal freedom. Many of his books such as *Infallible?* and *On Being a Christian* have rocked the Papal boat. Now after publishing two magnificent and acclaimed volumes of memoirs, Kung has written a much shorter and more personal book to explain his own beliefs. If one sets aside all scientific knowledge and learning, all formal theological language and the skilful construction of theories, what remains as the core of faith? What do we need for our lives? What is indispensable to us? Kung writes of trust in life, joy in life and suffering in life and in so doing gives us a summa of his own faith - and life.

The presence of the Catholic Church in the United States reaches back to the founding days of our country through the leadership of Archbishop John Carroll, the first Catholic bishop in the United States. His story like the stories at the start of each chapter in the *United States Catholic Catechism for Adults* give us a glimpse into the lives of Catholics who lived out their faith throughout our country's history. Each chapter in the *Catechism for Adults* includes stories, doctrine, reflection, quotations, discussion questions, and prayer to

This newly repackaged edition examines the lies people tell themselves that damage emotional health, relationships, and spiritual life. Psychologist Dr. Chris Thurman guides the reader through part one that identifies the different areas of self-lies, religious lies, marital lies, distortion lies, and worldly lies. Part Two delves into the issues of what is truth, and Part Three deals with how to live the truth, ultimately revealing the freedom that can only come from one thing-believing and telling themselves the truth. An extremely easy-to-follow guide filled with comprehensive workbook exercises, this edition is a way to help people experience the emotional health, intimate relationships, and spiritual fulfillment they are seeking. From the #1 New York Times bestselling author of *Relationship Goals* . . . Will you be remembered as a person who claimed to follow God but liked to play it safe? Or as a person who lived your life out on the limb and trusted God enough to live in crazy faith? Noah looked crazy when he started building the ark . . . until it started raining. It was crazy for Moses to lead a nation of people into the desert away from Egypt . . . until the Red Sea parted. It was crazy to believe that a fourteen-year-old virgin would give birth to the Son of God . . . until Mary held Jesus in her arms. There are many things that seem normal or average today that at one point in time seemed absolutely crazy. Smartphones, Wi-Fi, and even the electric light bulb were all groundbreaking, history-making inventions that started out as crazy ideas. Our see-it-to-believe-it generation tends to have a hard time exercising true faith—one that steps out, takes action, and sees mountain-moving results. Many of us would rather play it safe and stand on the sidelines, but it's crazy faith that helps us see God move and reveals His promises. In *Crazy Faith*, Pastor Michael Todd shows us how to step out in faith and dive into the purposeful life of trusting God for the impossible. Even if you have to start with baby faith or maybe faith, you can become empowered to let go of your lazy faith, trust God through your hazy faith, and learn to live a lifestyle of crazy faith. With powerful stories of modern-day faith warriors who take their cues from biblical heroes, Michael Todd equips you to • believe for the impossible • choose hope over fear • be alert to the voice of God • cope with loss and doubt • develop a deeper level of trust in God • speak faith-filled declarations • inspire crazy faith in others God's not looking for somebody to give Him all the reasons why His plans can't happen. He's looking for somebody to believe they will happen. In fact, He has so much He wants to do through you. The question is, Are you crazy enough to believe it?
