Weygandt's Managerial Accounting provides students with a clear introduction to fundamental managerial accounting concepts. This edition helps students get the most out of their accounting course by making practice simple. Designed for a one-semester, undergraduate Managerial Accounting course, the authors provide new opportunities for self-guided practice allowing students to check their knowledge of accounting concepts, skills, and problem solving techniques and receive personalized feedback at the question, learning objective, and course level. Using metric units and companies with a more global feel, this new text is ideal for courses across the world.

This edition focuses on concepts that are isolated in a logical sequence. It explains how accountants manipulate financial statements, discusses the three comon features of criminal and ethical misconduct including opportunity, pressure and rationalization, and much more.

Weygandt, Managerial Accounting , 6th Edition gives students the tools they need to succeed, whether as accountants or in other career paths. The authors present the fundamental concepts of managerial accounting in an easy-to-understand fashion in a decision-making framework for a one semester, undergraduate managerial accounting course. The author team of Weygandt, Kimmel, and Kieso provide students with pedagogy that helps develop decision-making skills, so students can be successful as future business professionals. The decision making pedagogy, easy-to-understand writing style, and quality end of chapter material have been the hallmark features that have made Managerial Accounting, by Weygandt, Kimmel, and Kieso one of the most popular books for this course. Real-World Emphasis - the authors continue the practice of using numerous examples from real-world companies in chapter openers and in the Management Insight boxes. Accounting Across the Organization - gives students business context by showing how people, often in non-accounting functions, use accounting information to make decisions. Expanded Emphasis Service Company - prepares students for work in the service industry market, and shows that accounting is relevant to both service and manufacturing companies. Do It! Exercises - teach students how to apply their knowledge quickly after they've learned it. Comprehensive Homework Material - each chapter concludes with Self-Test Questions, Questions, Brief Exercises, Do It! Review, Exercises, and Problems. Broadening Your Perspective Section - Is designed to help develop students' decision-making and critical thinking skills. New to this Edition Use of Current Designs (kayak-making company)-introduced in new Chapter 1 Feature Story, and is the basis for new Broadening Your Perspective problem- presents managerial accounting situations that are based on the operations of a real company. People, Planet, and Profit Insight Boxes, featuring sustainability approaches of real companies. New Broadening Your Perspective problem: Considering People, Planet, and Profit, which requires students to consider examples of real cases, such as the costs associated with an oil-refinery accident versus the costs of improving safety/work conditions. New Wiley Managerial Accounting Videos use real, successful companies to demonstrate and reinforce managerial accounting concepts. New easy-to-read spreadsheet illustrations improve readability as well as comparability to Excel. Bloom's taxonomy codes added to Brief Exercises, Do It! A novel about freaks, geeks, crushes, and friends-and how sometimes you can be all of them at once. Charlie is the freak. Gloria is the freak magnet. They're pretty much destined to meet. And when they do, sparks fly . . . for Charlie. Gloria, well, she just thinks he's like every other freak who feels compelled to talk to her, although a little better-looking than most. While Charlie has his head in the clouds, Gloria's got hers in a book: her Freak File-a record of every weirdo who's talked to her in the last year (it's a big book). But never before has she felt the pull to get to know one of them better. Until now. In this he-said-she-said tale of love, loss, and lucky signs from the author of the ac-claimed Funny Little Monkey, two young strangers at a crossroads in their lives become friends by happy accident (okay, maybe some harmless stalking is involved-and not by the person you'd think!) and forever change each other.

Introduction to Managerial Accounting, 4/e by Brewer/Garrison/Noreen is based on the market-leading text, Managerial Accounting, by Garrison, Noreen and Brewer. However, this is not simply a briefer book with chapters removed; B/G/N has been rethought and retooled to meet the needs of the market. B/G/N 4/e is a more accessible, yet thoroughly student-friendly text that satisfies the basic needs of the managerial accounting student without unnecessary depth on advanced topics associated with the follow-up course: cost accounting/cost management. Faculty and students alike will find this new edition has retained the hallmark features of the Garrison brand: author-written supplements, excellent readability, terrific examples, and balanced end-of-chapter material.

Make smart business decisions!
