Michael Bray's Whisper is a solid piece of horror fiction. I found myself blasting through the last half of the book, wanting to know how it ended and wanting to know that very moment. That's the mark of a great story-teller.

Michael Bray (Author of Whisper) - Goodreads

Whisper is, without a doubt, one of the best ghost stories I've read in the last few years. Not since Heart Shaped Box has a tale chilled me like this. All of the characters are well drawn and believable, and Bray builds the tension slowly, but relentlessly, interspersing the quieter moments with flashbacks showing what happened to the previous owners of the house.

MOVIE EDITION: INCLUDES ORIGINAL STORY & SCREENPLAY WARNING: THIS IS AN EXTREME HORROR NOVEL. There is gore. There is bad language. There are scenes of a sexual nature. There are scenes of domestic abuse. But hidden underneath it all is also a chilling story. Please do not purchase this book if you are easily shocked, disgusted or offended. This book is not for you. Teaming up together for the first time since 'ART', Michael Bray (Whisper) and Matt Shaw (Sick B*stards) bring you MONSTER; the haunting tale of a normal woman who wakes up to find herself part of a nightmare. "He's there, standing in the doorway. Seven foot tall, a face hidden beneath a mask of stretched, rotting skin. He isn't saying anything. He's just watching me, his head cocked to one side as though judging me. I pulled on the restraints but they didn't budge. I was trapped. I was his prisoner. I asked him what he wanted but he just repeated my sentence in a childish voice. I asked him for a second time and, for a second time, he repeated me. When I screamed, he screamed, raising his hands to his ears and closing his eyes as though my panicked yelling scared him. Who is he? What does he want with me? I begged for him to let me go and he responded by repeating me - again - word for word. Frustrated I started screaming. He turned and ran from the room. He didn't go far though. I can hear him out there. I can hear his heavy, wheezy breathing. A couple of seconds went by and he stuck his head around the corner. He didn't move from that spot. He just stood there, watching me once more."

When Jack the Ripper terrorised London in 1888, he would spark a mystery when he disappeared and his string of violent and horrific murders ended as quickly as they began, leaving one of the worlds oldest unsolved crimes in his wake. Now, in 1907, biographer Charles Hapgood is about to be visited a man with astonishing claims that he was the famous Ripper and wishes to tell his tale before his coming death. Sceptical at first, Hapgood agrees to hear his story, only to soon be shown undisputable proof that his visitor speaks the truth and is who he claims to be. As Hapgood listens to the man's tale, he is drawn into a world of pain, cruelty, horror and sadness as he discovers how an innocent child grew into the greatest living monster the world has ever seen. As the story unfolds he begins to fear for his own safety as the man once known as Jack The Ripper tells his story in his own words, a tale which goes far beyond the known timeline of his horrific crimes and reaches new depths of terror and depravity that Hapgood could never have imagined.

Tyler Matthews is desperate for change. Sick of his life and plagued by alcoholism, he makes the decision to divorce his wife, sell everything he owns and travel the world to try and find focus and rid himself of his addiction. Eventually arriving on the sun drenched shores of Australia and still plagued by his demons, he has spent all his savings and is facing the prospect of having to return to his old life. It is here that he meets two men with an outlandish story about a horde of sunken drug money in an area known as the Devil's Triangle - Australia's answer to its Bermuda namesake and said to be the lair of a terrifying monster of the deep. Offered a share of the fortune if he helps retrieve it, Tyler agrees to go with the men to the location, sceptical and thinking only of prolonging his journey of self discovery. He will learn, however, that this particular urban legend is real, and they encounter a giant of the seas, the previously thought to be extinct Megalodon which makes its home within the area of the Devil's triangle. Barely escaping with their lives, the three men wash up on an isolated island - no more than a rocky outcrop with no vegetation, fresh water or food sources. As desperation to survive intensifies, horrifying decisions will be made that will illustrate how man is sometimes the most violent predator on earth and when left with no option will do anything, even the unthinkable, in order to survive.

Music pumped into the club; Rock songs of the eighties on this themed night. The dance floor was packed with people mostly in their thirties enjoying the tunes from their younger days. The bar was crowded with groups of friends shouting to one another over the songs as they downed cocktails, pints and shots whilst eyeing up strangers who caught their eye. Not so much a club, more like a cattle market with people looking for drunken fumbles and one night stands with anyone willing. One such customer was Jacob Miller and - although the night was still young - he was already on the way to securing his fun for the evening. He had been chatting up a pretty brunette by the name of Harley for the last thirty minutes after first offering to buy her a drink. She had asked for a vodka and orange. She got a double and the same again when he bought her the second round. She was smiling, she was laughing at his jokes, blushing at his compliments and - unknown to him - planning on how to end his miserable life. By morning, he would be dead and the Twisted Bitches would have taken out another pathetic pig. From Matt Shaw, author of Sick B*stards and PORN, and Michael Bray, author of the Whisper Trilogy, comes a dark horror with a supernatural twist. Please be warned, this contains extreme violence, sex and horror. Do not purchase if easily offended.
