I ' ll watch her all right. Real close. I ' ll stick to her like superglue. And those human men who want to date her? They ' d better step back. Because the doctor is all mine. Whether she knows it yet or not.

In her 39th best-selling novel, Danielle Steel brings to life the story of three women, old roommates from college, who come together after twenty years, one summer at The Ranch. They had been inseparable in college, Mary Stuart, Tanya, and Zoe. But in the more than twenty years that followed, the three had moved on with their lives, settled in different cities, and found successful careers and new roles as mothers and wives. By chance, each would find herself alone for a few weeks one summer, wrestling with the present and the past. At a sprawling ranch in the foothills of Wyoming's Grand Teton Range, the three women come together and find courage, healing, and truth, and reach out to each other once again. Despite the honesty they once shared, now pretense between them runs high. Mary Stuart Walker, married for twenty-two years to a Manhattan lawyer, kept herself busy with volunteer work, and now masks the loneliness that consumes her life. A year has past, and Mary Stuart still hasn't gotten over the guilt, or the fear that her husband will never forgive her for their son's death... Tanya Thomas, an award winning singer and rock star, enjoys all the trappings of fame and success—a mansion in Bel Air, legions of fans, and a broken heart. All the Grammy awards in the world can't make up for the children she wanted but never had, the men who have taken advantage of her, and just gone along for the ride, and still are... Dr. Zoe Phillips has her hands full as a single mother to an adopted two-year-old, and as a doctor at an AIDS clinic in San Francisco. Predictably, as they all know, she is as liberal as she ever was, and marriage was never a dream she coveted or shared with them. Tending to her patients is a full-time job that leaves Zoe little time for herself--until unexpected news forces her to reevaluate both her future, and her current life. But despite the changes in their lives, their friendship is still a bond they all treasure and share. For each of the women, a few weeks at the ranch will bring healing and release, as old hurts are buried, ancient secrets revealed, and love replaced or renewed. In The Ranch, bestselling novelist Danielle Steel brings reality to the meaning of friendship, with dramas whose truths we all share.

Celia Lawrence can't show her face in her conservative, small town. First, she discovered her husband in bed with another man's wife, and then she witnessed both their murders. While she didn't pull the trigger, small town gossip is not forgiving and everywhere she goes she is chastised for not being woman enough to keep her straying husband at home. Eager to flee her old life, Celia heads to Colorado as a mail-order bride. As mayor of Slate Springs, Colorado, Luke Tate is expected to set the example. Their small town is hidden away in a remote mountainous region where few women have the courage or desire to tread. As mayor, it falls to him to test out their newly passed law and share a wife with his brother. The truth is, Luke has no interest in a woman of his own, and agrees to a mail-order bride out of duty, not anticipation. His brother, Walker, is jaded and hard after the death of his first wife. For Walker, loving again is out of the question. But a man has needs, and he'll eagerly take his pleasure from their new bride while expecting Luke to provide the tenderness and caring a woman expects. A marriage based on everything but love should be doomed. But Celia, Luke and Walker discover one thing they have in common: desire. Will that be strong enough to survive the danger that follows Celia from Texas? Will desire be strong enough to teach the three that sometimes you have to risk everything for love?
