Talk about a bad-hair day! Sophie Garou is a master at taming her inner beast, which comes in handy since she's a werewolf. With a big promotion at work and a supersexy boyfriend, Heath (whom she recently spotted leaving a jewelry store with a beguiling ring box), she's one happy girl. But when Heath starts spending long nights at the office with his new associate/a dead-ringer for Career Day Barbie!Sophie smells trouble. And when her professional relationship with her big new client/who also happens to be Texas's brilliantly blue-eyed most eligible bachelor/begins to sizzle, she wonders if her animal instincts are leading her in the wrong direction. Just when it seems that things can't get any more complicated, they do. The Houston werewolf pack has sniffed Sophie out, and their message is chillingly clear: you're either with us or against us. And unless she can prove that she's with them, the next full moon may just be her last. From the Paperback edition.

No delicate ingenues, these. In the middle of the twentieth century, the Mary Pickfords of the movie world were replaced by a different sort of woman—drop-dead gorgeous, witty, not afraid to speak their minds, they could slay you with a look—and if that didn't work, look out for the pistol in the garter. These ground-breaking actresses helped change the course of movie history, charting a path for generations to come. These profiles of fifteen leading ladies—Lucille Ball, Lynn Bari, Joan Blondell, Ann Dvorak, Gloria Grahame, Jean Hagen, Adele Jergens, Ida Lupino, Marilyn Maxwell, Mercedes McCambridge, Jane Russell, Ann Sheridan, Barbara Stanwyck, Claire Trevor and Marie Windsor—include overviews of their lives and careers, and excerpts from interviews. Five photos supplement each profile. Jane Russell (one of the actresses profiled) provides a foreword.

Call outs on each page help students grasp the conceptual understanding behind the code block. Books in this series include table of contents, glossary of keywords, index, and author biography.

In the process of providing the most extensive analysis of Alfred Hitchcock's Rear Window to date, John Fawell also dismantles many myths and clichés about Hitchcock, particularly in regard to his attitude toward women. Although Rear Window masquerades quite successfully as a piece of light entertainment, Fawell demonstrates just how complex the film really is. It is a film in which Hitchcock, the consummate virtuoso, was in full command of his technique. One of Hitchcock's favorite films, Rear Window offered the ideal venue for the great director to fully use the tricks and ideas he acquired over his previous three decades of filmmaking. Yet technique alone did not make this classic film great; one of Hitchcock's most personal films, Rear Window is characterized by great depth of feeling. It offers glimpses of a sensibility at odds with the image Hitchcock created for himself—that of the grand ghoul of cinema who mocks his audience with a slick and sadistic style. Though Hitchcock is often labeled a misanthrope and misogynist, Fawell finds evidence in Rear Window of a sympathy for the loneliness that leads to voyeurism and crime, as well as an empathy for the film's women. Fawell emphasizes a more feeling, humane spirit than either Hitchcock's critics have granted him or Hitchcock himself admitted to, and does so in a manner of interest to film scholars and general readers alike.
