A rollicking look at popular culture 's most beloved sleuth: " For even the casual fan, the history of this deathless character is fascinating " (The Boston Globe). Today he is the inspiration for fiction adaptations, blockbuster movies, hit television shows, raucous Twitter banter, and thriving subcultures. More than a century after Sherlock Holmes first capered into our world, what is it about Sir Arthur Conan Doyle 's peculiar creation that continues to fascinate us? Journalist and lifelong Sherlock fan Zach Dundas set out to find the answer. The result is *The Great Detective: a history of an idea, a biography of someone who never lived, a tour of the borderland between reality and fiction, and a joyful romp through the world Conan Doyle bequeathed us.* In this " wonderful book " (Booklist, starred review), Dundas unearths the inspirations behind Holmes and his indispensable companion, Dr. John Watson; explores how they have been kept alive over the decades by writers, actors, and readers; and visits locales—from the boozy annual New York City gathering of one of the world 's oldest and most exclusive Sherlock Holmes fan societies; to a freezing Devon heath out of *The Hound of the Baskervilles*; to sunny Pasadena, where Dundas chats with the creators of the smash BBC series *Sherlock*. Along the way, he discovers the ingredients that have made Holmes go viral—then, now, and as long as the game 's afoot.

Born 1906 in London as the son of an English mother and a German father, Rudolf Uhlenhaut was an engineer and designer for Daimler-Benz. He became famous for his achievements regarding the Silver Arrows, the 300 SL with the famous gull wing doors, the legendary Mercedes-Benz 300 SLR, known as the 'Uhlenhaut Coup é' and the various experimental C 111 versions well-known for several speed records. -- Uhlenhaut joined Daimler-Benz in 1931 after finishing his studies of mechanical engineering in Munich. In 1936 he took over as head of the racing department and conducted the Silver Arrows and Rudolf Caracciola to their 1937 European championship. Based upon the 300 SL 'Gullwing', initially a thoroughbred racing sports car, he created the road versions W198 and the smaller open-topped W121, both launched at the International Motor Sports Show in New York 1954. Though Uhlenhaut never owned a car of his own, his official company car, a 300 SLR with a top speed of 290 km/h became famous as the Uhlenhaut Coup é 'the fastest car of its day authorized for road use! -- This first ever comprehensive biography of Rudolf Uhlenhaut, illustrated with many previously unpublished photographs, depicts his life and technical achievements, presenting a complete compilation of all the patents he filed and exploring their significance. It also draws a vivid picture of the person behind the technical innovations and tries to explore his character and motivation.
