James's notion of consciousness or 'pure experience' is akin to Zen tathata (suchness). Japan's renowned philosopher Kitaro Nishida, in fact, used James's concept to explain tathata to the Japanese themselves. As this collection of essays makes clear, Western practitioners of Zen and other nondual practices need not be spiritual vagabonds. We need, rather, to claim our inheritance from the 'father of American psychology.'

Calling Crow searches for his wife, kidnapped by a vindictive Spanish priest. Captured and wounded by another tribe, he is dragged from death's door by a woman he will grow to love. Adopted by the Coosa, he becomes their chief. French Protestant colonists settle to the North. Then the Spanish Catholics return to the lands they claimed as their own, bringing Calling Crow's wife with them. The two European groups learn of each other's presence and make war plans. Now Calling Crow must ensure that the coming battle doesn't destroy the people he has grown to love, and his two women, one of whom he must choose.

Ceserani and Kinton's *The Theory of Catering* is a core text for every hospitality and catering student, delivering a comprehensive overview of the industry as a whole and presenting the theory necessary for competent professional practice. The content follows the food chain through its natural path, from commodity and its science, through delivery from the supplier, storage, preparation and production, to final service to the waiting customer. First published in 1964, this latest 11th edition has been comprehensively revised to reflect changes in the industry, including the new hygiene standards introduced in January 2006 and up-to-date information on the new licensing laws. The content continues to be divided into six parts covering, in turn: the hospitality industry as a whole, including current influences and trends; food commodities, nutrition and science; planning, production and service; organisation and business development; and legislation. The companion CD-ROM, a new feature for this edition, includes a Knowledge Quiz facility that enables students to test their knowledge of catering theory as they work through the book and their course, and prepare for examinations and assessment, while the Resource Centre makes available all the photos and digital artwork, tables and charts from the book that students can drop into essays, reports and presentations, helping them to complete their coursework and enhance the quality and presentation of what they produce.
