Frankenstein; or, The Modern Prometheus is a novel written by the British author Mary Shelley. The first edition was published anonymously in London in 1818, and Shelley's name appeared on the revised third edition, published in 1831. The title of the novel refers to the scientist, Victor Frankenstein, who learns how to create life and creates a being in the likeness of man, but larger than average and more powerful. In modern popular culture, people have tended to refer to the Creature as "Frankenstein" (especially in films since 1931), despite this being the name of the scientist, and the creature being unnamed in the book itself. Frankenstein is a novel infused with elements of the Gothic novel and the Romantic movement. It was also a warning against the "over-reaching" of modern man and the Industrial Revolution, alluded to in the novel's subtitle, The Modern Prometheus. The story has had an influence across literature and popular culture and spawned a complete genre of horror stories and films. It is arguably considered the first fully-realised science fiction novel and raises many issues still relevant to today's society.

At Level 2, you learn how to: skim for the main idea; skim for the topic of paragraphs; read for an established purpose; understand non-text markers; distinguish fact from opinion; make inferences - 'read between the lines'; recognise the author's point of view; apply ideas to real-world situations; transfer information, e.g., text to outline; and react to a text. As well as preparing students for entry into English-medium study, the Skills in English Course is ideal for students who wish to improve their scores in skills-based examinations for university entry requirements, such as the International English Language Testing System (IELTS).
